## MISSION STATEMENT AND MAJOR GOALS

---

*It is the mission of Pittsburg Unified School District to inspire our students, to ensure they achieve equity in academic excellence and to bring students closer together through shared experiences in learning. We believe the cultural diversity of our community and our youth are our greatest assets. We endeavor to bring our students to their fullest potential and to create life-long learners who will contribute positively to the world.*

### *BOARD GOALS:*

1. All Schools and their student subgroups will attain a score of 800 or higher on the Academic Performance Index (API) by 2014. Schools and student subgroups that attain a score of 800 will continue to meet annual growth targets.
2. The Board will allocate resources to support all goals while maintaining fiscal solvency in the multi-year budget plan.
3. All schools and classrooms will respond to student and staff needs by providing an environment where all students and staff feel emotionally and physically safe, valued, and acknowledged, as measured by an annual survey of students, parents and staff beginning academic year 2011-12.
4. Beginning academic year 2011-12, all district facilities will be reviewed quarterly for cleanliness, operational integrity and safety using a standardized rating system to ensure established standards are maintained.
5. Beginning in academic year 2011-12, the Board, all district departments and all schools will utilize current technology to communicate and interact with all stakeholders on a monthly basis during each school year.

### Community Leaders Entrusted with the Lives of Our Children

Our District is fortunate to have five elected volunteer citizens who feel passionately about ensuring that the school district provides our children with the knowledge, skills and ambition to fulfill their greatest dreams.

Four of our trustees are graduates of our schools and the other is a long-time educator and community advocate. Our trustees frequently visit schools and devote many long hours to studying materials in order to make important educational and financial decisions for our District.

The trustees typically meet on the second and fourth Wednesday of the month at 7:30 P.M. in the District Office Board room, located at 2000 Railroad Avenue, Pittsburg. Meeting norms include keeping the focus on the best interest of our students, listening actively to all ideas, communicating openly and honestly, respecting differences, and staying focused on the goals of the District. The trustees invite public comment at Board meetings. Comments are typically limited to a three minute limit for each individual on each agenda item. Time limits may be adjusted if there are a large number of members of the public who wish to comment.

## Superintendent Budget Message

---

The 2013-2014 Interim Budget reflects a new method of funding California's public schools. The Local Control Funding Formula (LCFF) is intended to give greater flexibility to local educational agencies to meet the needs of underserved students. This distribution methodology is vastly different from the former funding model and, while providing additional resources for certain groups of students, has a number of yet to be determined requirements. So, while we are relieved to receive additional funds to serve our students, we remain cautious until the new requirements and regulations are provided to us. The LCFF will be aligned to the Local Control and Accountability Plan which will be designed with input from stakeholders. The focus of the plan is increased performance and improved outcomes for students using resources from the Local Control Funding Formula.

## SSC School District, Charter School, and County Office Financial Projection Dartboard 2013-14 Adopted Budget

This version of SSC's Financial Projection Dartboard is based on the adopted 2013-14 State Budget. We have updated the cost-of-living adjustment (COLA), Consumer Price Index (CPI), and ten-year T-bill planning factors per the latest economic forecasts. We have also inserted Local Control Funding Formula (LCFF) factors. We rely on various state agencies and outside sources in developing these factors, but we assume responsibility for them with the understanding that they are general guidelines.

<sup>2</sup> For the forecast years, the total dollar amount needed to fund the statutory COLA is applied to the LCFF Simulator.

<sup>3</sup> The forecast for Lottery funding per ADA includes both base (unrestricted) funding and the amount restricted by Proposition 20 (2000) for instructional materials. Lottery funding is initially based on prior-year annual ADA—and is ultimately based on current-year annual ADA—times the historical statewide average excused absence factor of 1.04446.

<sup>4</sup> District reserve requirements as stated in the State Board of Education (SBE) adopted criteria and standards based solely on district size is not as relevant when financial volatility and exposure is disparate under the LCFF. We recommend that every district first observe the current SBE-required reserve for the traditional economic uncertainties. We also recommend the establishment of a separate LCFF reserve based on the annual LCFF revenue increase projected for the district in Year 2 and Year 3 of the multiyear projection. We recommend that the district develop a plan to, over time, set aside one year's growth in LCFF funding as a reserve due to the potential volatility inherent in the LCFF.

## **Tutorial on Use of the SSC Dartboard and LCFF Simulator Budget Adoption Version**

Readers who are familiar with use of our longstanding School Services of California, Inc.'s, (SSC) Dartboard will note that extensive changes to format and content have been made, even since the May Revision. The reason for these changes is that school districts will be required to amend budgets for 2013-14 and prepare the attendant multiyear projections now that the State Budget and Governor Jerry Brown's proposed Local Control Funding Formula (LCFF) have been enacted. The purpose of this Dartboard is to enable districts to revise their budgets to reflect the actions of the state.

You will see four major sections of the Dartboard and a series of very important explanatory notes. The first section, LCFF Entitlement Factors, depicts the funding factors embedded in our SSC Simulator. The second major section, LCFF Dartboard Factors, refers you to the SSC Simulator for creation of the specific planning factors for your unique district. The third section, Planning Factors, will be fairly familiar in that it depicts the traditional planning factors that we have always included in the Dartboard. Finally, we have added a completely new section, Reserves, regarding our recommendations for creation of an LCFF Reserve.

A reminder: don't skip the footnotes!

### **Rationale**

Unlike past years where the rate of change to revenue limits and categorical funding were generally consistent across all districts, upon passage of the Governor's LCFF, every district will now have its own unique progress rate toward the funding goal for 2020-21. Depending upon the district's unique base funding amount in 2012-13, the number of students qualified for supplemental and concentration grants, and the amount of money the state chooses to apply to the formula each year, each district will receive its own unique increase in funding per student.

Given that the accountability provisions of the LCFF have been referred to the State Board of Education, there is also some uncertainty as to how much, if any, of the supplemental or concentration grant funding is discretionary to the district. We believe that high levels of uncertainty in the funding model call for a high degree of conservatism in the projection of future revenues.

### **The LCFF Simulator**

Because each district has its own unique funding factors, we have developed an online tool that individual districts can use to calculate funding under the LCFF. Based upon the enacted Budget, we have expanded that tool to provide factors that can be used to make multiyear projections of the funding that would be made available under the new system. We take full responsibility for the subjective judgments and assumptions needed to derive these formulae.

Development of this tool required a tremendous amount of knowledge and effort by members of our SSC team, but we think you will agree that the value to school districts makes our efforts worthwhile. We expect that this particular iteration of our LCFF Simulator will again have a

short life before we make revisions. But we think our methodology is sound and that most of the changes we make in the future will be in response to the regulations promulgated by the State Board or subsequent changes to state law.

Our plan is to continue the evolution of our online tools to ensure we provide every possible assistance to your district.

### **Use of the Tool**

Our website identifies each specific user with the district they represent. When you log in, you will have access to the LCFF Simulator and will be able to input a specific set of district-unique factors. The output product will process your inputs and make comparisons between the increase you would receive under the LCFF based upon two distinct contribution levels the state might be assumed to make. Our approach continues to be conservative.

We have been careful to use the 2012-13 funding for your district as a starting point for both calculations. In order to do that, we added the same factors used for the computation of the LCFF base amount in 2013-14 in both calculations. Year one, 2013-14 is assumed to be the same under either calculation. Keep in mind that it is the delta between the annual calculations that matters most in projecting future revenues. For those who wish to validate the base-year calculations, our Dartboard is peppered liberally with explanatory footnotes.

Based upon your district's unique factors, the output of the SSC Simulator provides a district-specific dollar amount derived from each of two calculations. The output product includes both a summary of the net change to per-average daily attendance revenues and a graphical representation of the range of funding estimates generated by the model. One of the calculations represents planning factors derived by SSC from state materials; the other is a lower SSC recommended planning factor.

### **SSC's Recommendation**

We recommend that you budget the first year dollars as shown, and then select the lower SSC recommendation for the two out-year calculations for use in your multiyear projections. The SSC recommendation will be highlighted on the output product, as will the delta between each of the years. Use the numbers straight from the output product.

As mentioned previously, we expect our recommendations to continue to evolve as the new system matures and becomes more widely understood. In keeping with that, we ignore some factors that could later become significant. For example, the provisions of the LCFF accountability model proposed for implementation by the State Board might define differently the degree of control that districts have over large portions of their funding. Also, at some point in the future, we might determine that for some districts our estimate is overly conservative or aggressive, and at that point, we would change our model to reflect those conditions. We therefore recommend use of our conservative model.

Our goal is to give you a solid rationale that gets you to the next checkpoint even in the face of substantial uncertainty. We believe our recommendations do that.

# BUDGET ASSUMPTIONS 2013-2014

---

## **KEY ELEMENTS OF THE BUDGET**

- **REVENUE (INCOME)**  
*How Much We Generate*
- **EXPENDITURES**  
*How Much We Spend*
- **RESERVE**  
*How Much is Allocated for Contingencies*

The following section provides detailed information regarding the District's sources of revenue, categories of expenditure, and level of reserve.

## ASSUMPTIONS UTILIZED IN BUDGET DEVELOPMENT

### **HOW ARE REVENUE AND EXPENDITURE PROJECTIONS ESTABLISHED?**

Because there are so many unpredictable factors affecting revenue and expenditures, it is important to develop and utilize budget assumptions based on the best information available at the time the budget is adopted. The upward and downward swings in the state budget make this more challenging than ever. Consequently, the adoption of a budget should be considered a “financial snapshot” on the date it is adopted. As variables change, it is necessary to make formal adjustments, approved by the Governing Board throughout the course of the year. The 2013-14 assumptions follow.

### **UNAUDITED ACTUALS 2012-13**

This document contains the Projected Actuals for the 2013-14 Budget Year. This is an estimate of the financial condition of the district we feel will be evident once the auditors have completed their review of revenues and expenditures for 2012-13. Based upon analysis, the budgets have been adjusted to reflect as accurate an ending balance as possible at this time.

Categorical programs and all other funds will have to adjust their expenditures to absorb the increases in salaries and benefits due to collective bargaining contracts.

### **FRAMEWORK OF THE GOVERNOR’S ADOPTED BUDGET FOR FISCAL YEAR 2013-14**

The 2013-14 budget provides increased funding for schools, primarily in the form of \$2.1 billion to implement the Local Control Funding Formula (LCFF), and \$1.25 billion in one-time money for Common Core implementation. While the Common Core funds have begun to flow to LEAs, the advance apportionment is still largely based on the revenue limit model because LCFF entitlements will not be certified until P-2. For many districts the first interim report may mark their first concrete attempt to precisely align their budgets to the new funding model. Investing the time to read through the guidance contained herein and to fully utilize the LCFF Calculator will help district leaders to complete the necessary calculations, and to understand and communicate the complexities and implications of the LCFF.

#### **Local Control Funding Formula (LCFF)**

The LCFF is intended to provide a funding mechanism that is simple and transparent while allowing local educational agencies (LEAs) maximum flexibility in allocating resources to meet local needs. While the formula itself is relatively straightforward, the transition from revenue limit funding to the LCFF is very complex. The primary cause for this complexity is the state’s commitment to ensuring all LEAs are funded at no less than they received in 2012-13. The complexity of the transition funding is best captured in the LCFF Calculator found on the FCMAT website.

### **Advance Apportionment**

While the new LCFF is effective July 1, 2013, the CDE has not yet incorporated many of the LCFF provisions into its apportionment systems. The advance apportionment for 2013-14 is based on a statutory derivation pursuant to Education Code sections 14002 through 14007 and 41301. Section 41330 directs the CDE to apportion money in the advance apportionment on the basis of the second principal apportionment (P-2) from the preceding fiscal year. It includes categorical funding entitlements from 2012-13 rolled into the LCFF. Consequently, this advance apportionment includes only minimal changes enacted by the 2013 Budget Act and implementing legislation, including AB 97. Because this apportionment is merely a means to begin allocating funds in accordance with Education Code section 41330, it should not be used for budget purposes but should be considered for cash flow purposes. Actual final funding under the new LCFF formulas will differ from this advance. The CDE anticipates calculating LEA funding using the new LCFF formula in the 2013-14 P-2 apportionment, which will be certified on or before July 2, 2014.

### **Federal Funds**

As decisions are made about appropriations for 2014, action by Congress and the Administration will be necessary to change the annual sequestration requirements of the Budget Control Act. Sequestration will still be in effect in fiscal year 2014 without specific congressional action to amend the Budget Control Act.

For 2013-14 budget development and multiyear planning, it is recommended that local educational agencies assume a 5.2% reduction in all federal education programs (child nutrition is exempt) for the 2013-14 school year budget. For subsequent fiscal years, it would be prudent to plan for additional reductions in federal funding until Congress resolves the federal deficit issues that led to sequestration. While the precise magnitude of potential subsequent year cuts is unknown at this time, if Congress takes no action and current law remains in place, OMB projected an “8.2 percent reduction in non-exempt nondefense discretionary funding.”

### **Categoricals / Regulated Programs**

The enacted State Budget eliminates most state categorical program funding, except for a few programs funded outside the LCFF.

**Williams Act:** Funding is absorbed by the LCFF but the requirements are still in place. It is expected that LCFF funds will be used to meet the requirements.

**Deferred Maintenance:** Education Code section 17582 is amended. While funding for deferred maintenance is part of the base in the LCFF, the responsibility for maintaining district facilities becomes part of a district’s Local Control Accountability Plan (LCAP). Williams Act facility requirements continue.

**Economic Impact Aid (EIA) Funding:** EIA is now one of the categorical programs included in the LCFF formula. Currently the requirement to post expenditure data to the LEA’s website under Education Code section 54029 is still in effect. Districts should continue to post expenditures until cleanup language is completed. Carryover funds from EIA entitlements for 2012-13 and any previous fiscal years are still subject to the former EIA restrictions.

**Lottery:** Lottery funding is calculated in the same manner as prior years. The CDE estimates that the lottery will provide \$156 per ADA (\$126 per ADA in unrestricted lottery revenues and \$30 per ADA in Proposition 20 revenues) for 2013-14.

**Mandated Costs:** The adopted budget increases the Mandate Block Grant (MBG) allocation by \$50 million, and the funds will be distributed to districts with high schools for graduation requirements. The budget suspends a variety of other mandates outside the MBG. Districts opting to accept the MBG will receive \$28 per ADA for grades K-8, and \$56 per ADA for grades 9-12. LEAs that do not opt to receive funding through the MBG will need to continue to collect data and submit for reimbursement. However, the budget does not include funding for mandated cost claims.

**Routine Restricted Maintenance:** The permanent repeal of the RRM 3% contribution requirement that was in the May Revision did not make it into the final budget. Consequently, LEAs continue to have flexibility to reduce the contribution to 1% (or 0% if in compliance with Williams) through 2014-15, and then the 3% requirement returns. The requirements under the Williams Act remain. Districts should review their routine maintenance needs and ensure that Williams Act requirements are met and that students are housed in facilities that are safe, clean and in good repair.

**Regional Programs:** Because the LCFF permanently eliminates a wide range of regional programs as separate identified funding streams, districts receiving regionalized services or funding through another LEA should be aware that the regional provider may not be able to sustain these services indefinitely without district contributions. Examples of programs that are often operated regionally include ROC/P, BTSA, and CTAP, among others. All former Tier III regional programs may be diminished over time by rising costs and competing priorities under the LCFF's flexibility.

### **Redevelopment Agencies**

AB 1484 prescribed the time frame during which the RDA pass-through payments will cease to be made to local governments by successor agencies that have assumed the responsibilities and obligations of former RDAs, including previously determined financial obligations. Specifically, AB 1484 added subdivision (b) of Section 34187 of the Health and Safety Code, which states:

“(b) When all the debt of a redevelopment agency has been retired or paid off, the successor agency shall dispose of all remaining assets and terminate its existence within one year of the final debt payment. When the successor agency is terminated, all pass-through payment obligations shall cease (emphasis added) and no property tax shall be allocated to the Redevelopment Property Tax Trust Fund for that agency.” Districts should stay current with the status of debt payments and other recognized obligations of any former RDA from which they receive payments and, if warranted, begin planning for the early termination of those payments. More specifically, districts need to track when the recognized obligations will end by project area within a former RDA, as the pass-through payments associated with a particular project area will end when the associated obligations are retired, even if other projects continue to have outstanding obligations. Any district utilizing pass-through payments for debt service should pay particular attention to the estimated life of the applicable projects and develop contingency plans to service debt as warranted.

## **Reserves**

There are multiple benefits to carrying higher than minimum reserves. These reasons include volatility of state revenues, cash management, deferral management, declining enrollment, dependency on parcel taxes, basic aid dependency on property taxes and basic aid districts that are close to losing their basic aid status. This is in no way an exhaustive list. Of all the reasons for carrying higher than minimum reserves, however, state revenue volatility is one of the most compelling. This is especially true during LCFF implementation because gap percentage funding is directly tied to the state's ongoing ability to fund the LCFF through Proposition 98 growth. Most importantly, by providing a buffer from volatile state revenues, higher than minimum reserves creates a more stable educational environment for students.

## **Cash Management**

Even though the LCFF is projected to bring fiscal relief to LEAs, cash management is still essential. The state is committed to reducing debt as evidenced by the repayment of cross fiscal year deferrals during 2012-13 and 2013-14. At the peak in 2011-12, deferrals totaled \$9.4 billion, but are projected to decrease to \$5.6 billion in 2013-14. A significant change to LEA cash flows occurred in 2012-13 with the passage of Proposition 30, which established the Education Protection Act (EPA) whereby temporary sales tax and income tax revenues are collected and distributed to schools. EPA will be apportioned quarterly in 2013-14. The first EPA apportionment of 2013-14 (\$1.38 billion) was distributed on September 24, 2013. Although the LCFF is effective beginning in 2013-14, EPA entitlements will continue to be calculated on the revenue limit formula.

## **Multi-Year Assumptions**

### **AB 1200**

Districts should be cautious in the development and presentation of multiyear projections.

In some cases, the LCFF calculation results in 2014-15 and 2015-16 revenue growth that is significantly higher than the anticipated statutory COLA percentage for those years.

This should serve as a red flag to anyone with experience in California K12 finance.

There remains a great deal of clarification still to be settled about the use of LCFF funding particularly supplemental and concentration funds. For these reasons, districts should not enter into ongoing salary settlements or other ongoing commitments that rely on additional state funding significantly beyond the anticipated COLA. Additionally, districts should be prepared to designate fund balance reserves to ensure that the fiscal solvency of the agency is protected where uncertainty exists about the receipt of future state revenues.

## **Adult Education**

Adult Education funds are folded into the LCFF and are intended to be flexible for any educational purpose. However, the enacted budget changed provisions for adult education from the status quo to a maintenance of effort model for two years. For the 2013-14 and 2014-15 fiscal years only, the district or county office of education shall expend no less for the Adult Education program than the amount spent in the 2012-13 fiscal year. The recently chaptered LCFF cleanup bill, SB 97, clarified that school districts and county offices of education will satisfy the maintenance of effort requirement if they collectively maintain Adult Education on a countywide basis.

## **Special Education**

Special education will be funded outside the LCFF, with funding for ADA growth and a 1.57% COLA. The statewide target rate will be completely recomputed for the first time since the AB 602 funding formula was implemented in the 1998-99 school year. Based on this new recomputed rate, SELPAs with growth are expected to receive an estimated \$502.25 per ADA and an estimated COLA of \$7.86 per ADA. The enacted budget changes the AB 602 funding formula by allocating federal local assistance funds outside the formula. This is intended to streamline the calculation and correct inequities in the funding that SELPAs receive for growth ADA versus the amount they are penalized when they decline. In addition, the budget rolls \$92.7 million of regionalized services and program specialist service funds and \$2.5 million in personnel development funds into the AB 602 base. School districts continue to be responsible for mental health services to disabled students. A total of \$423 million is provided to support mental health services. Of that amount, \$69 million comes from federal funds and the remainder comes from Proposition 98 funding. The mental health funding formula for the distribution of the \$423 million will be allocated on a per-ADA basis to the SELPAs. The past claims for Behavioral Intervention Plans (BIP) are not mentioned or funded in the budget. The BIP mandate for the future appears to be scaled back in the language, and there are no mandate funds owed going forward. This is being challenged by the California School Boards Association.

## **Proposition 39**

For five fiscal years, 2013-14 through 2017-18, funds will be provided for K-14 schools. In 2013-14 the total funding is projected to be \$428 million. K-12 education (school districts, charter schools, and county offices of education) will be allocated \$381 million of the total, with LEA distributions based 85% on a per-ADA allocation (second principal apportionment of prior year) and 15% on the basis of free and reduced price meal-eligible students (prior year). The CDE has posted 2013-14 entitlement amounts, but specifies that these amounts are subject to revision. PUSD is projected to receive approximately \$550,000 per year for five years.

## **Local Control and Accountability Plans**

Thereafter, any revisions to the template shall be made by the SBE prior to January 31 of each year.

**Part I - General Administrative Share of Plant Services Costs**

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

**A. Salaries and Benefits - Other General Administration and Centralized Data Processing**

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)

- 2. Contracted general administrative positions not paid through payroll
  - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800. \_\_\_\_\_

**Part II - Adjustments for Employment Separation Costs**

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

**A. Normal Separation Costs (optional)**

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. \_\_\_\_\_

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

**Part IV - Carry-forward Adjustment**

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

<b>A. Indirect costs incurred in the current year (Part III, Line A8)</b>	<u>4,074,892.42</u>
<b>B. Carry-forward adjustment from prior year(s)</b>	
1. Carry-forward adjustment from the second prior year	<u>264,373.53</u>
2. Carry-forward adjustment amount deferred from prior year(s), if any	<u>0.00</u>
<b>C. Carry-forward adjustment for under- or over-recovery in the current year</b>	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (5.31%) times Part III, Line B18); zero if negative	<u>0.00</u>
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (5.31%) times Part III, Line B18) or (the highest rate used to recover costs from any program (8.63%) times Part III, Line B18); zero if positive	<u>(376,200.86)</u>
<b>D. Preliminary carry-forward adjustment (Line C1 or C2)</b>	<u>(376,200.86)</u>
<b>E. Optional allocation of negative carry-forward adjustment over more than one year</b>	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	<u>4.17%</u>
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-188,100.43) is applied to the current year calculation and the remainder (\$-188,100.43) is deferred to one or more future years:	<u>4.38%</u>
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-125,400.29) is applied to the current year calculation and the remainder (\$-250,800.57) is deferred to one or more future years:	<u>4.45%</u>
LEA request for Option 1, Option 2, or Option 3	<u>1</u>
<b>F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)</b>	<u>(376,200.86)</u>

Approved indirect cost rate: 5.31%  
 Highest rate used in any program: 8.63%

Note: In one or more resources, the rate used is greater than the approved rate.

District's ADA Standard Percentage Range: -2.0% to +2.0%

**1A. Calculating the District's ADA Variances**

DATA ENTRY: Budget Adoption data that exist will be extracted; otherwise, enter data into the first column for all fiscal years. First Interim Projected Year Totals data should be entered for all fiscal years.

Fiscal Year	LCFF/Revenue Limit (Funded) ADA		Percent Change	Status
	Budget Adoption Budget (Form 01CS, Item 4A1, Step 2A)	First Interim Projected Year Totals

DATA ENTRY: Budget Adoption data that exist will be extracted; otherwise, enter data into the first column. In the First Interim column, Current Year data are extracted; enter data for the two subsequent years.

Fiscal Year	LCFF/Revenue Limit (Fund 01, Objects 8011, 8012, 8020-8089)		Percent Change	Status

2nd Subsequent Year (2015-16)	59,894,561.00	73,908,843.00	23.4%	Not Met

**4B. Comparison of District LCFF/Revenue Limit to the Standard**

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Projected LCFF/revenue limit has changed since budget adoption by more than two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard and a description of the methods and assumptions used in projecting LCFF/revenue limit.

**Explanation:**  
(required if NOT met)

The Budget for 2013/14 was adopted in June 2013 prior to the Local Control Funding Formula (LCFF) coming into law. Assuming Revenue Limit funding for the Budget Adoption was the conservative approach for our District. These increases in revenues are due to the implementation of LCFF beginning in 2013/14, moving many State Categorical grants into these funding object codes, therefore there will be similar decreases in the State Categorical object codes and correlated contributions to those restricted resources.

**5. CRITERION: Salaries and Benefits**

STANDARD: Projected ratio of total unrestricted salaries and benefits to total unrestricted general fund expenditures for any of the current fiscal year or two subsequent fiscal years has not changed from the historical average ratio from the three prior fiscal years by more than the greater of three percent or the district's required reserves percentage.

**5A. Calculating the District's Historical Average Ratio of Unrestricted Salaries and Benefits to Total Unrestricted General Fund Expenditures**

DATA ENTRY: Unaudited Actuals data that exist for the First Prior Year will be extracted; otherwise, enter data for the First Prior Year. Unaudited Actuals data for the second and third prior years are preloaded.

**5B. Calculating the District's Projected Ratio of Unrestricted Salaries and Benefits to Total Unrestricted General Fund Expenditures**

DATA ENTRY: If Form MYPI exists, Projected Year Totals data for the two subsequent years will be extracted; if not, enter Projected Year Totals data. Projected Year Totals data for Current Year are extracted.

Fiscal Year	Projected Year Totals - Unrestricted (Resources 0000-1999)		Ratio of Unrestricted Salaries and Benefits to Total Unrestricted Expenditures	Status

1st Subsequent Year (2014-15)	53,630,136.00	59,773,358.00	89.7%	Met
2nd Subsequent Year (2015-16)	54,472,176.00	59,623,417.00	91.4%	Met

**5C. Comparison of District Salaries and Benefits Ratio to the Standard**

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Projected ratio of unrestricted salary and benefit costs to total unrestricted expenditures has changed by more than the standard in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard and a description of the methods and assumptions used in projecting salaries and benefits.

**Explanation:**  
(required if NOT met)

The ratio for 2013/14 is not met due to the one-time allocation of \$4.6M in Capital Outlay and Non-Capitalized Equipment for the implementation of Common Core Standards. Removing this allocation would bring the ratio to 89.7% and within the standard.

**6. CRITERION: Other Revenues and Expenditures**

STANDARD: Projected operating revenues (including federal, other state and other local) or expenditures (including books and supplies, and services and other operating), for any of the current fiscal year or two subsequent fiscal years, have not changed by more than five percent since budget adoption.

Changes that exceed five percent in any major object category must be explained.

District's Other Revenues and Expenditures Standard Percentage Range:	-5.0% to +5.0%
District's Other Revenues and Expenditures Explanation Percentage Range:	-5.0% to +5.0%

**6A. Calculating the District's Change by Major Object Category and Comparison to the Explanation Percentage Range**

DATA ENTRY: Budget Adoption data that exist will be extracted; otherwise, enter data into the first column. First Interim data for the Current Year are extracted. If First Interim Form MYPI exists, data for the two subsequent years will be extracted; if not, enter data for the two subsequent years into the second column.

Explanations must be entered for each category if the percent change for any year exceeds the district's explanation percentage range.

Object Range / Fiscal Year	Budget Adoption Budget (Form 01CS, Item 6B)	First Interim Projected Year Totals (Fund 01) (Form MYPI)	Percent Change	Change Is Outside Explanation Range
<b>Federal Revenue (Fund 01, Objects 8100-8299) (Form MYPI, Line A2)</b>				
Current Year (2013-14)	5,376,482.00	5,859,729.00	9.0%	Yes
1st Subsequent Year (2014-15)	4,776,482.00	4,505,088.00	-5.7%	Yes
2nd Subsequent Year (2015-16)	4,776,482.00	4,279,834.00	-10.4%	Yes

**Explanation:**  
(required if Yes)

Much of the Federal Revenue increase for 2013/14 is due to the deferred revenue carryover from the prior year. The decrease from 2013/14 to 2014/15 is incorporating the end of some Federal grants. The District is also assuming a 5% reduction in on-going Federal grants due to Sequestration not being resolved by the Federal government.

<b>Other State Revenue (Fund 01, Objects 8300-8599) (Form MYPI, Line A3)</b>				
Current Year (2013-14)	17,276,768.00	9,519,327.00	-44.9%	Yes
1st Subsequent Year (2014-15)	17,026,768.00	7,020,652.00	-58.8%	Yes
2nd Subsequent Year (2015-16)	17,026,768.00	7,020,652.00	-58.8%	Yes

**Explanation:**  
(required if Yes)

The large decreases in Other State Revenues is due to the implementation of LCFF for 2013/14. The Budget for 2013/14 was adopted under the Revenue Limit funding because it was the more conservative approach for our District. The implementation of the LCFF caused many State categorical grants to move to different object codes.

<b>Other Local Revenue (Fund 01, Objects 8600-8799) (Form MYPI, Line A4)</b>				
Current Year (2013-14)	5,473,111.00	5,666,868.26	3.5%	No
1st Subsequent Year (2014-15)	5,473,111.00	5,666,868.00	3.5%	No
2nd Subsequent Year (2015-16)	5,473,111.00	5,666,868.00	3.5%	No

**Explanation:**  
(required if Yes)

<b>Books and Supplies (Fund 01, Objects 4000-4999) (Form MYPI, Line B4)</b>				
Current Year (2013-14)	3,930,009.00	4,863,914.96	23.8%	Yes
1st Subsequent Year (2014-15)	2,730,009.00	4,030,836.00	47.6%	Yes
2nd Subsequent Year (2015-16)	2,655,009.00	3,030,836.00	14.2%	Yes

**Explanation:**  
(required if Yes)

The increase for 2013/14 is mainly due to the allocation of carryover budgeted to Supplies and the one-time Board allocation of expenditures for the implementation of Common Core.

<b>Services and Other Operating Expenditures (Fund 01, Objects 5000-5999) (Form MYPI, Line B5)</b>				
Current Year (2013-14)	10,899,173.00	12,303,572.46	12.9%	Yes
1st Subsequent Year (2014-15)	9,749,173.00	10,770,938.00	10.5%	Yes
2nd Subsequent Year (2015-16)	9,624,173.00	10,770,938.00	11.9%	Yes

**Explanation:**  
(required if Yes)

The increase for 2013/14 is due to the one-time Board allocation for Common Core and carryover amounts allocated to Services and Contracts. The decrease for 2014/15 is due to an annual installment of an early retirement incentive being completed in 2013/14 and the contracts from carryover amounts not being assumed.

**6C. Comparison of District Total Operating Revenues and Expenditures to the Standard Percentage Range**

DATA ENTRY: Explanations are linked from Section 6A if the status in Section 6B is Not Met; no entry is allowed below.

- 1a. STANDARD NOT MET - One or more projected operating revenue have changed since budget adoption by more than the standard in one or more of the current year or two subsequent fiscal years. Reasons for the projected change, descriptions of the methods and assumptions used in the projections, and what changes, if any, will be made to bring the projected operating revenues within the standard must be entered in Section 6A above and will also display in the explanation box below.

**Explanation:**  
 Federal Revenue  
 (linked from 6A

- 1b. STANDARD NOT MET - One or more total operating expenditures have changed since budget adoption by more than the standard in one or more of the current year or two subsequent fiscal years. Reasons for the projected change, descriptions of the methods and assumptions used in the projections, and what changes, if any, will be made to bring the projected operating revenues within the standard must be entered in Section 6A above and will also display in the explanation box below.

**Explanation:**  
 Books and Supplies  
 (linked from 6A  
 if NOT met)

The increase for 2013/14 is mainly due to the allocation of carryover budgeted to Supplies and the one-time Board allocation of expenditures for the implementation of Common Core.

**Explanation:**  
 Services and Other Exps  
 (linked from 6A  
 if NOT met)

The increase for 2013/14 is due to the one-time Board allocation for Common Core and carryover amounts allocated to Services and Contracts. The decrease for 2014/15 is due to an annual installment of an early retirement incentive being completed in 2013/14 and the contracts from carryover amounts not being assumed.

**7. CRITERION: Facilities Maintenance**

STANDARD: Identify changes that have occurred since budget adoption in the projected contributions for facilities maintenance funding as required pursuant to Education Code sections 17584 (Deferred Maintenance) and 17070.75 (Ongoing and Major Maintenance Account).

**7A. Determining the District's Compliance with the Contribution Requirement for EC Section 17584 - Deferred Maintenance**

**NOTE:** AB 97 (Chapter 47, Statutes of 2013) eliminated the Deferred Maintenance program under the Local Control Funding Formula. This section has been inactivated.

**7B. Determining the District's Compliance with the Contribution Requirement for EC Section 17070.75 as modified by Section 17070.766 and amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15 - Ongoing and Major Maintenance/Restricted Maintenance Account (OMMA/RMA)**

**NOTE:** SB 70 (Chapter 7, Statutes of 2011) extends EC Section 17070.766 from 2008-09 through 2014-15. EC Section 17070.766 reduced the contributions required by EC Section 17070.75 from 3 percent to 1 percent. Therefore, the calculation in this section has been revised accordingly for that period.

**8. CRITERION: Deficit Spending**

STANDARD: Unrestricted deficit spending (total unrestricted expenditures and other financing uses is greater than total unrestricted revenues and other financing sources) as a percentage of total unrestricted expenditures and other financing uses, has not exceeded one-third of the district's available reserves<sup>1</sup> as a percentage of total expenditures and other financing uses<sup>2</sup> in any of the current fiscal year or two subsequent fiscal years.

<sup>1</sup>Available reserves are the unrestricted amounts in the Reserve for Economic Uncertainties and the Unassigned/Unappropriated accounts in the General Fund and the Special Reserve Fund for Other Than Capital Outlay Projects. Available reserves will be reduced by any negative ending balances in restricted resources in the General Fund.

**8C. Comparison of District Deficit Spending to the Standard**

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage level in any of the current year or two subsequent fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budget, and what changes will be made to ensure that the budget deficits are eliminated or are balanced within the standard.

**Explanation:**  
(required if NOT met)

Deficit Spending in 2014/15 is mainly due to the two-year Adult Education Maintenance of Effort requirement from the State. Adult Education is expected to use most of their fund balance reserves in 2013/14 and will require a Transfer from the General Fund.

**9. CRITERION: Fund and Cash Balances**

A. FUND BALANCE STANDARD: Projected general fund balance will be positive at the end of the current fiscal year and two subsequent fiscal years.

**9B-2. Comparison of the District's Ending Cash Balance to the Standard**

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - General fund cash balance is projected to be negative at the end of the current fiscal year. Provide reasons for the negative cash balance and what changes or remedies will be made to ensure that the general fund is solvent and able to satisfy its current year financial obligations.

**Explanation:**  
(required if NOT met)

The District does not project to have a negative ending cash balance until June 2013, as a result of State cash deferrals and the implementation of LCFF, the District will monitor its cash closely to ensure it remains solvent and can satisfy its financial obligations. The District plans to temporarily borrow from other District funds or the County, if cash does become negative in June.

**10. CRITERION: Reserves**

STANDARD: Available reserves<sup>1</sup> for any of the current fiscal year or two subsequent fiscal years are not less than the following percentages or amounts<sup>2</sup> as applied to total expenditures and other financing uses<sup>3</sup>:

Percentage Level	District ADA		
5% or \$63,000 (greater of)	0	to	300
4% or \$63,000 (greater of)	301	to	1,000
3%	1,001	to	30,000
2%	30,001	to	400,000
1%	400,001	and	over

<sup>1</sup> Available reserves are the unrestricted amounts in the Reserve for Economic Uncertainties and the Unassigned/Unappropriated accounts in the General Fund and Special Reserve Fund for Other Than Capital Outlay Projects. Available reserves will be reduced by any negative ending balances in restricted resources in the General Fund.

<sup>2</sup> Dollar amounts to be adjusted annually by the prior year statutory cost-of-living adjustment (Education Code Section 42238), rounded to the nearest thousand.

**1d. Capital Project Cost Overruns**

Have capital project cost overruns occurred since budget adoption that may impact the general fund operational budget?

No

\* Include transfers used to cover operating deficits in either the general fund or any other fund.

**S5B. Status of the District's Projected Contributions, Transfers, and Capital Projects**

DATA ENTRY: Enter an explanation if Not Met for items 1a-1c or if Yes for Item 1d.

1a. NOT MET - The projected contributions from the unrestricted general fund to restricted general fund programs have changed since budget adoption by more than the standard for any of the current year or subsequent two fiscal years. Identify restricted programs and contribution amount for each program and whether contributions are ongoing or one-time in nature. Explain the district's plan, with timeframes, for reducing or eliminating the contribution.

**Explanation:**  
(required if NOT met)

Increases in Contributions from the Unrestricted General Fund are due to the implementation of the LCFF. With the LCFF, the revenues are now being received in the Unrestricted General Fund, however expenditures remain Restricted and a contribution is necessary.

1b. MET - Projected transfers in have not changed since budget adoption by more than the standard for the current year and two subsequent fiscal years.

**Explanation:**  
(required if NOT met)

- 1c. NOT MET - The projected transfers out of the general fund have changed since budget adoption by more than the standard for any of the current year or subsequent two fiscal years. Identify the amounts transferred, by fund, and whether transfers are ongoing or one-time in nature. If ongoing, explain the district's plan, with timeframes, for reducing or eliminating the transfers.

**Explanation:**  
(required if NOT met)

The increases in Transfers Out from the General Fund are due to two things. First, an increase in our Enrollment and ADA over our Adopted Budget has resulted in \$600,000 annually being transferred out to Fund 17. Second, an annual transfer from \$355,221 is planned from the General Fund to Fund 14 due to the implementation of LCFF.

- 1d. NO - There have been no capital project cost overruns occurring since budget adoption that may impact the general fund operational budget.

**S8. Status of Labor Agreements**

Analyze the status of employee labor agreements. Identify new labor agreements that have been ratified since budget adoption, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues and explain how these commitments will be funded in future fiscal years.

**If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:**

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.

PITTSBURG UNIFIED SCHOOL DISTRICT

# APPENDIX 3

# SACS STRUCTURE

## STANDARDIZED ACCOUNT CODE STRUCTURE (SACS)

JULY 2011

### PITTSBURG UNIFIED SCHOOL DISTRICT

---

The major budget control is through the proper classification of all expenditures by the utilization of twenty five digit expenditure codes. The standardized account code structure currently in use has been developed by the state of California to insure that all districts are reporting their budgets in the same standard manner. The fund and resource codes will allow the tracking of specific activities and sources of income. Listed below is an explanation of the account code structure. The major distinguishing expenditure code is the object of expenditure.

<b>A</b>	<b>B</b>	<b>C</b>	<b>D</b>	<b>E</b>	<b>F</b>	<b>G</b>	<b>H</b>
<b>FUND</b>	<b>RESOURCE</b>	<b>GOAL</b>	<b>FUNCTION</b>	<b>SITE</b>	<b>PROJECT</b>	<b>DUO</b>	<b>OBJECT</b>
<b>00</b>	<b>0000</b>	<b>0000</b>	<b>0000</b>	<b>000</b>	<b>0</b>	<b>000</b>	<b>0000</b>

- A. This two-digit number indicates the FUND. A fund is a self-balancing set of financial accounts established to carry on specific activities. In the example, Fund 01 is the General Fund. Additional fund codes have been set up for:
- Cafeteria Fund
  - Adult Education Fund
  - Child Development Fund
  - Deferred Maintenance Fund
  - Building Fund
  - Capital Facilities Fund
  - County Facility Fund
  - Special Reserve Fund
  - Retiree Trust Fund
  - Bond Interest & Redemption Funds
- B. This four-digit number is the RESOURCE code. The resource code tracks activities funded with revenues that have financial reporting requirements such as special education. In addition, the resource code separates unrestricted from restricted funds. The unrestricted funds are coded in resources 0000 - 1999. The restricted funds are coded in resources 2000-9999. All resource codes must be balanced individually.
- C. The GOAL code is a four-digit code which defines an objective related to an instructional setting or a special population. An example would be 1110 which means regular education k-12. This field is used to account for the cost of instruction and other services.
- D. FUNCTION is also a four-digit code. The purpose of the function field is to designate a general operational area and /or a type of activity. The function field in conjunction with certain goals plays an important part in determining the district indirect cost rate. Some examples of function codes are 2700 school administration, 8100 plant maintenance and operations, 1000 instruction. The district uses a function code to identify programs which do not have a specific resource code.
- E. SCHOOL code is a three-digit code which is used to define the specific site that the budget services. Each site has two codes.
- F. PROJECT code is a seldom used code used when a federal grant spans multiple fiscal years. It is normal to find a 0 in this code location.
- G. The DUO field is a three-digit field which the District can use to designate anything unique to this district. Currently we place a nine in the first position to indicate funds carried over from a previous year. When not in use, four zeros fill this position.
- H. OBJECT codes are used to classify revenues by general sources and types. In addition object codes are used to classify expenditures according to types of items purchased or services obtained. The object code is a four-digit code.

## School Funding Undergoes Major Reform An Essential EdSource Guide

### Key Questions & Answers

*The way California's public education system is funded is changing dramatically as a result of a law signed by Gov. Jerry Brown in July, 2013. Its centerpiece is the Local Control Funding Formula, designed to send additional funds to districts where Gov. Brown believes "the need and the challenge is greatest." For the first time, the law requires that parents, students, teachers, and other community members be involved in the process of deciding how new funds are spent. This EdSource guide provides an explanation of the essential elements of the new system.*

#### **Q. What is the Local Control Funding Formula?**

**A:** The Local Control Funding Formula represents the most significant change in California's funding system for K-12 schools in four decades. It is the central feature of landmark legislation—Assembly Bill 97—currently being implemented in every California school district. It will affect every school in the state, including charter schools.

One goal of the new law is to improve academic outcomes by providing more money to school districts that serve high-needs students. Another goal is to give local school districts more authority to decide how to spend education dollars, and hold them accountable for getting results.

#### **Q. When does it start?**

**A:** The transition to the Local Control Funding Formula—education experts refer to it simply as LCFF—begins in the current school year, 2013-14, and will be phased in gradually. Based on revenue projections, districts will reach what is called "full funding" in eight years—in 2020-21. Until full funding is reached, each year districts will get additional funds based on student attendance and the percentage of a district's children who are low-income, English learners, and foster youth. This projection assumes that the state's economy will improve each year at a healthy rate. If the economy falters, it could take longer to reach full funding. If the state's recovery accelerates, it could be sooner.

#### **Q. How will state funds be allocated to districts?**

**A:** Funding will go to districts rather than individual schools. Most of the funds will consist of a *base grant* that districts will receive for every student in attendance. The base grant will be higher for younger elementary school students and highest for high school students. The base

grant—when full funding is achieved—will be \$7,675 for students in grades K-3, \$7,056 for students in grades 4-6, \$7,266 for students in grades 7-8, and \$8,638 for students in grades 9-12. These figures include a cost-of-living adjustment for 2013-14. The base grants will be adjusted upward each year to reflect cost-of-living increases.

Districts will also receive a *supplemental grant* based on the number of high-needs students enrolled in the district. Those with more than 55% high-needs students will get even more funds through what are called *concentration grants*.

The new law effectively eliminates 32 “categorical” programs—dedicated funding for everything from summer school and school counselors to building maintenance and principal training—that for decades were intended to serve specific needs. Instead, the categorical funds will be folded into the grant districts will get. Districts will have the option to provide the services funded by categorical funds, but they won’t be required to do so.

**Q. How much in additional funding will districts get based on their enrollments of low-income students, English learners, and foster children?**

**A.** Once full funding is achieved in 2020-21, each district will get a *supplemental grant* of 20% of the base grant for every English learner, foster youth, and low-income student. If a student is in more than one of these categories—if he or she is both a low-income student and an English learner, for example—districts will still receive only one supplemental grant of 20 percent for that student.

The new system also recognizes that districts with large numbers of high-needs students face extra challenges and costs. So if more than 55% of a district’s students fall into the high-needs category, the district qualifies for an additional *concentration grant* for each high-needs student over the 55% threshold.

**Q. So will my district get more or less money?**

**A.** As a result of an improving state economy and funds generated by Proposition 30 approved by voters in 2012, most districts should receive significantly more money over the next eight years than they are currently receiving. During the 2013-14 school year, no district will receive less than it received in 2012-13. When the formula is fully funded, the vast majority of districts should receive at least as much as they received before the start of the Great Recession (in 2007-08) adjusted for inflation since then.

*I’m signing a bill that is truly revolutionary. We are bringing government closer to the people, to the classroom where real decisions are made and directing the money where the need and the challenge is greatest. This is a good day for California, it’s a good day for school kids, and it’s a good day for our future.*

– GOV. JERRY BROWN, JULY 1, 2013

**Q. What about funding for special education students?**

**A.** The new formula makes no changes in how special education is currently funded. A dozen other programs, including child nutrition, foster youth services, and after-school education funded by Proposition 49, a voter-approved initiative, will also continue as before.

**Q. Does a district have to spend the additional funds it will receive on low-income and other high-needs students?**

**A.** The new law gives districts flexibility to spend their base grants as they choose. But districts must use the additional state funds—the supplemental and concentration grants—to “increase or improve services” for low-income students, English learners and foster children “*in proportion* to the increase in funds” they receive for these students. By early 2014, the State Board of Education must write regulations spelling out what exactly that means. It will have to decide, for example, whether a district can spend its extra funding on services that benefit all students or whether the funds must be spent on just high-needs students.

**Q. How will districts be held accountable for how they spend state funds?**

**A.** The new law requires that information on how funds are spent be provided in a transparent way to the public. By July 1 2014, each school board must adopt a Local Control and Accountability Plan (LCAP) that sets out its goals and priorities, with special attention to high-needs students bringing additional funds to the district as a result of the law. The district must adopt a three-year plan and update it annually.

The law requires that spending be aligned with eight state priority areas, which include test scores, graduation rates, the Common Core State Standards, measures of career and college readiness, parent involvement, school climate, and student engagement. County offices of education will review districts’ accountability plans and approve them when appropriate.

**Q. Will there be consequences for school districts that do not improve sufficiently?**

**A.** Instead of the punishment-oriented approach of the current accountability system, the thrust of the new system is to provide support to schools and school districts that fail to show improvement. The state will establish a new entity—the California Collaborative on Educational Excellence—to help school districts improve.

School districts will have to show progress in the state’s priority areas. The State Board of Education will draw up evaluation guidelines or “rubrics” that districts will use to assess their strengths and weaknesses. County offices of education will use a “support rubric” to determine if a district, or even one of 12 student sub-groups, has failed to improve in any one priority area. In that case, the county office of education would be required to provide some form of support, such as assigning a team of experts to help the district. In cases of “persistently failing” school districts, the State Superintendent of Public Instruction, with the approval of the State Board, can intervene directly, and even place the district under supervision of a state trustee or administrator.

### Q. How can I get involved?

**A.** School districts must provide opportunities for input from teachers, principals, administrators and other school personnel, the district's unions, parents, and students so that funds are spent appropriately and equitably. The primary vehicle for them to provide input is through the Local Control and Accountability Plan. At a minimum, school boards must hold a public hearing on the plan before adopting it at a later public meeting. In addition, the new funding law requires that districts reach out to parents through a parent advisory committee. Districts where English learners comprise at least 15 percent of enrollment must also consult with an English learner advisory committee.

The State Board of Education will provide more details in the spring of 2014 when it creates an outline or template for what should be in the Local Control and Accountability Plan. In the meantime, parents can become involved in other ways, asking questions about how their district is planning to implement the new funding system, what the timeline will be for developing the Local Control and Accountability Plan, and participating in discussions with their school site councils.

*The responsibility is on parents and communities to get much more involved in their schools and in their school budgets. We used to rely on the state to have regulations and auditors. Now we're relying on community local action. I would turn the challenge over to parents and say, "You've got to get out there and get involved."*

– MICHAEL KIRST  
PRESIDENT, CALIFORNIA STATE BOARD OF EDUCATION
