Welcome back to your sites! It's been a long year and a half since we've had our school sites operating at 100%.

On May 5, 2021, the Facilities Department hosted a Board Workshop to review the past bond projects and to propose a new bond project list. The projects approved by the Board on May 12, 2021 to proceed under the Measure P funding include: Los Medanos ES Portable Replacement Project, PHS Tennis Court & Lighting Project, Hillview JHS Campus Replacement Project and the PHS Softball Field & Fields Lighting Project. The Board also decided to replace Hillview instead of modernizing it.

The Los Medanos project is moving forward, and is set to break ground in late September or early October. The 18 Classroom building will be completed and ready for occupancy by August 2022. The new Hillview JHS is getting ready to start a lengthy design and

approval phase which will take up to 18 months. Construction should start late 2023, and the new school should be complete for the 2025 school year.

The PHS Softball Field and Fields Lighting Project was moved to the current project list. This project will start in the Spring of 2022 and be complete by September 2022.

In addition to these projects are the smaller projects Facilities has tackled over the summer. PHS is getting a new Marquee, additional kindergarten classrooms and restrooms were prepared for the start of the school year, and the scoreboard at the PHS Stadium will be replaced.

Facilities is working hard to maintain the District's school sites and provide top notch learning environments for our scholars.

CURRENT PROJECT

PHS TENNIS COURT & LIGHTING PROJECT

SUMMER PROJECTS

PHS MARQUEE PROJECT

The Marquee at the High School has been needing replacement for years. This summer the Facilities Department began work to not only replace the Marquee, but replace the base and roof structure. The base and roof structure work was awarded to BuildCorp, Inc. Stewart Signs will be providing and installing the new Marquee. *Marquee Photo credit Cindy Hoke*

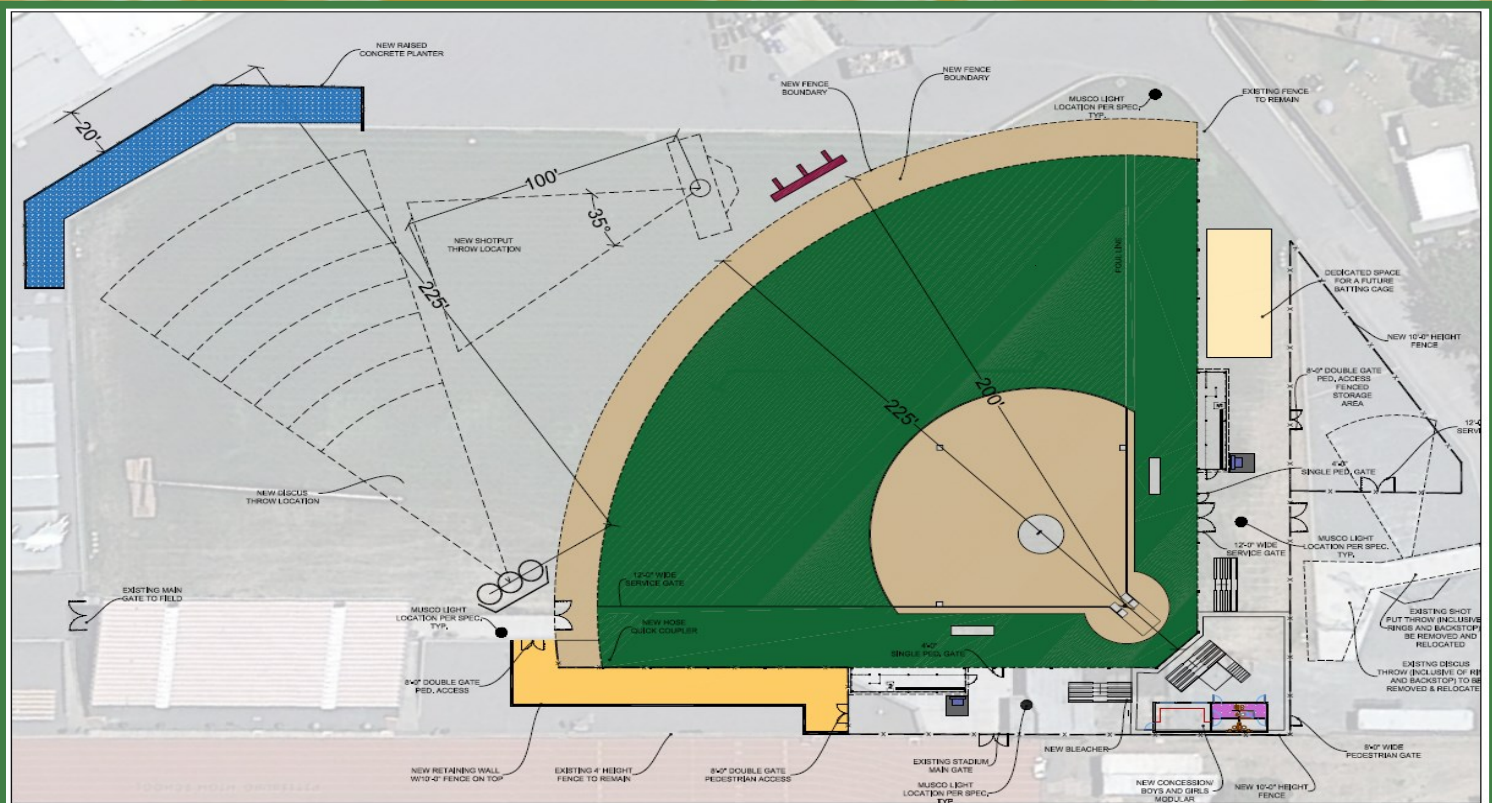

PHS STADIUM SCOREBOARD

Pirate Stadium is in need of a new scoreboard. The Board approved a new scoreboard, and it should be installed by the last game of the season.

**Hillview JHS Campus
Replacement Project
2023**

KINDERGARTEN CLASSROOM PROJECTS

The Facilities Department undertook various small projects on five different Elementary School campuses. Some campuses, in order to accommodate all our little scholars, needed some additional space (taken from existing spaces), additional restrooms and some code-required work for restrooms. This work is now complete, and was ready for use when school started on August 11, 2021.
