Summer flew by at the Facilities Department. School has started, and many of our summer projects have been completed. New security cameras have been installed at Pittsburg High School providing additional security to our great scholars and dedicated staff. We are looking into installing cameras in P Wing as well.

The final piece of the Willow Cove ES Modernization and Construction project, the Fire Lane Paving and Drainage Project, was completed in record time. The windows at Highlands ES have been replaced providing better energy efficient classrooms.

As you can see, the stadium lights are shining bright on Pirate Stadium.

The Highlands ES HVAC Replacement project will finish soon.

Parkside ES New Campus Replacement project keeps moving along. A topping off celebration was held in August to commemorate the last steel beam being placed. The project is on schedule, and the Parkside community will have a new, Net Zero elementary school campus next year.

Our IT Department worked diligently over the summer to have all IT equipment in place for the first day of school at all our campuses.

to  
School**

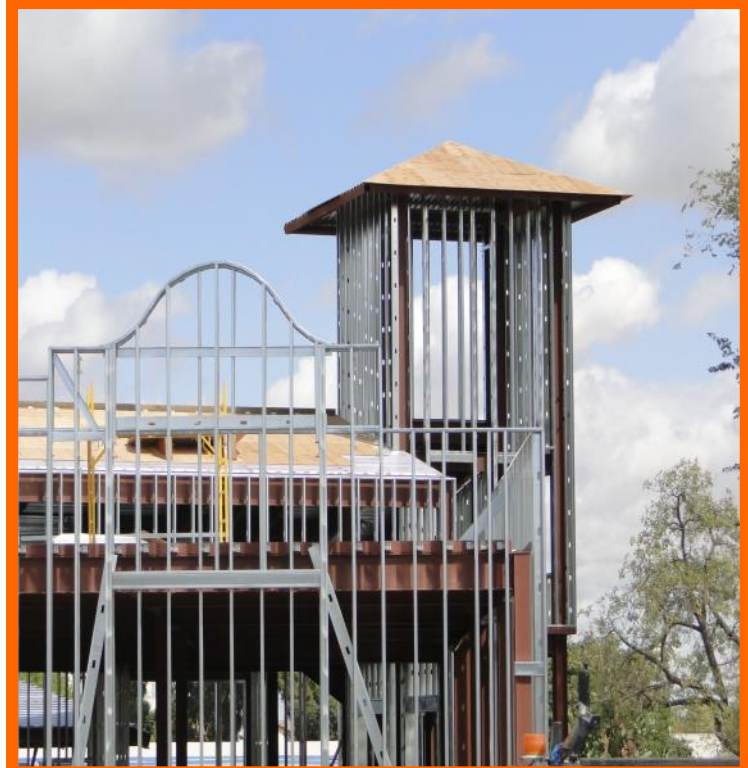

**Autumn is Here!**

# CURRENT PROJECTS

## PARKSIDE ES CAMPUS REPLACEMENT

Parkside Elementary School is coming along. All of the steel has been placed, and utility rough in and interior wall construction has begun. Little Gonzalo is keeping a keen eye on all the activity at his school site. Perhaps this little scholar will be building new schools someday.

## HIGHLANDS ES HVAC REPLACEMENT PROJECT

Unfortunately, the HVAC project was not completed by the first scheduled day of school. However, Highlands ES did open with great fanfare on August 26th. The District pulled out all the stops to welcome Highlands' scholars, their families and the staff to their special first day of school.

# CURRENT PROJECTS

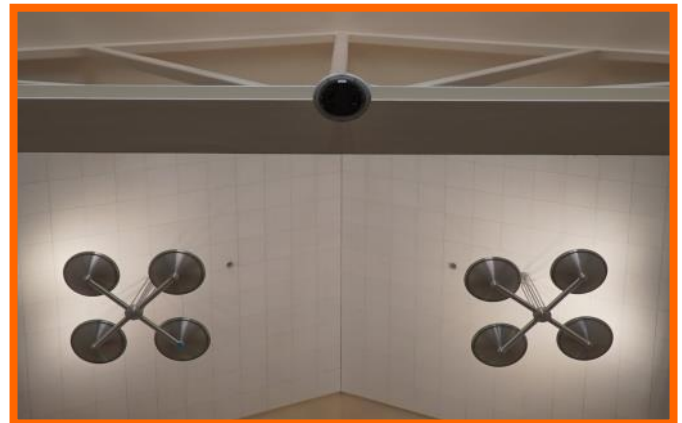

**HIGHLANDS ES WINDOWS REPLACEMENT PROJECT**

**SOLAR/WIND POWER AND BIOS-WALE LEARNING CENTER PROJECT**

**PITTSBURG HIGH SCHOOL SECURITY CAMERAS PROJECT**
