James Larry Scott,
Director of Facilities &
Information Technology
925.473.2438

It's been a long year, hasn't it? Despite the various setbacks the District has faced in 2019-2020, the Facilities Department has not only managed the IT crisis we experienced over the Winter Break, but we have been in the forefront of preparing our Facilities for a post-COVID-19 Pandemic environment.

While managing these crises, we have been able to continue with construction at our Parkside Elementary School Campus Replacement project. Our project was designated an essential governmental function by our Board of Trustees during the Shelter-in-Place restrictions, and work was able to continue unabated. We are excited to be opening the new school on August 12th.

Other projects have come to the forefront. Roofs are getting much needed repair at Pitts-

burg High School, and a soil settlement mitigation project is underway at Rancho Medanos Junior High School.

Plans for the Tennis Court Modernization project are in DSA, and the project is slated to begin in October. By next summer, Pittsburg High School will be home of the newest, tournament-grade tennis court facility in the County. A center court will highlight home and guest tournaments. Another exciting feature to our stellar high school campus!

Upcoming projects moving forward in design are the Los Medanos Elementary School Portable Replacement project and the Hillview Junior High School Campus Replacement/Modernization project. Many thanks to the Pittsburg community for their continued and generous support.

CURRENT PROJECT

PARKSIDE ES CAMPUS REPLACEMENT

Front Office

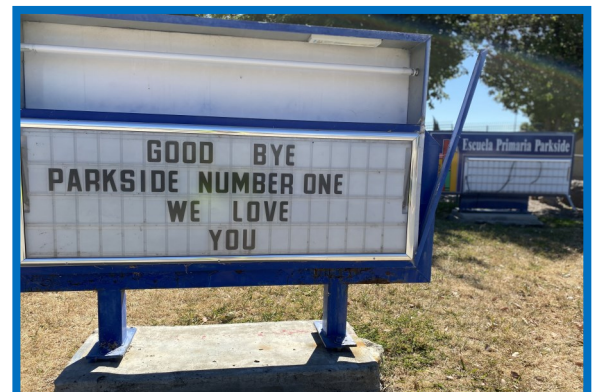

The whole District and community are eagerly awaiting the completion of the Parkside Elementary School Campus Replacement Project. Work has accelerated over the spring and into the summer. Crews are working hard to meet milestone dates, and final finishes will soon be undertaken. Since the project was considered an essential governmental function, there was no interruption in construction during the Shelter-in-Place.
