#### INDEPENDENT AUDITORS' REPORT

Governing Board
Pittsburg Unified School District
Pittsburg, California

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pittsburg Unified School District, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Pittsburg Unified School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Pittsburg Unified School District, as of June 30, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis, budgetary comparison information, schedule of changes in net OPEB liability, schedule of District contributions – OPEB, schedule of investment returns – OPEB, schedule of funding progress for OPEB benefits, schedules of proportionate share of net pension liability, and schedules of District contributions for pensions be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Pittsburg Unified School District's basic financial statements. The supplementary information listed in the table of contents, including the schedule of expenditures of Federal awards, which is required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 14, 2018 on our consideration of Pittsburg Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pittsburg Unified School District's internal control over financial reporting and compliance.

# PITTSBURG UNIFIED SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

#### **INTRODUCTION**

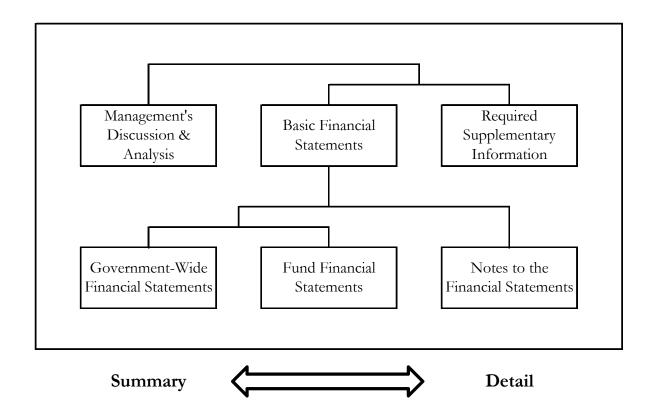

Our discussion and analysis of Pittsburg Unified School District's (District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2017. It should be read in conjunction with the District's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- Total net position was \$7,092,862 at June 30, 2017. This was a decrease of \$33,311,094 from the prior year's net position.
- Overall revenues were \$175,311,414 which were less than expenses of \$208,622,508.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

#### Components of the Financials Section

This annual report consists of three parts – Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives:

- Government-wide financial statements, which comprise the first two statements, provide both short-term and long-term information about the entity's overall financial position.
- Fund financial statements focus on reporting the individual parts of District operations in more detail. The fund financial statements comprise the remaining statements.
  - ▶ **Governmental Funds** provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.
  - **Fiduciary Funds** report balances for which the District is a custodian or *trustee* of the funds, such as Associated Student Bodies and pension funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The basic financial statements are followed by a section of required and other supplementary information that further explain and support the financial statements.

#### Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.

The government-wide financial statements of the District include governmental activities. All of the District's basic services are included here, such as regular education, food service, maintenance and general administration. Local control formula funding and federal and state grants finance most of these activities.

#### FINANCIAL ANALYSIS OF THE ENTITY AS A WHOLE

#### **Net Position**

The District's net position was \$7,092,862 at June 30, 2017, as reflected below. Of this amount, \$(86,138,216) was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the Governing Board's ability to use that net position for day-to-day operations.

#### FINANCIAL ANALYSIS OF THE ENTITY AS A WHOLE (continued)

The cost of all our governmental activities this year was \$208,622,508 while net cost of services was only \$176,914,589. The amount that our taxpayers ultimately financed for these activities through taxes was only \$40,999,536 because the cost was paid by other governments and organizations who subsidized certain programs with grants and contributions.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S MAJOR FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed this year, its governmental funds reported a combined fund balance of \$50,688,682, which is less than the beginning fund balance of \$74,994,849. The District's General Fund had \$2,366,457 more in operating revenues than expenditures for the year ended June 30, 2017. The District's Building Fund had \$38,090,314 less in operating revenues than expenditures for the year ended June 30, 2017. The District's Capital Facilities Fund had \$12,180,023 more in operating revenues than expenditures for the year ended June 30, 2017. The District's Special Reserve Fund for Capital Outlay Projects had operating revenues equal to expenditures for the year ended June 30, 2017. The District's Bond Interest and Redemption Fund had \$1,321,047 less in operating revenues than expenditures for the year ended June 30, 2017.

#### **CURRENT YEAR BUDGET 2016-17**

During the fiscal year, budget revisions and appropriation transfers are presented to the Board for their approval on a monthly basis to reflect changes to both revenues and expenditures that become known during the year. In addition, the Board of Education approves financial projections included with the Adopted Budget, First Interim, and Second Interim financial reports. The Unaudited Actuals reflect the District's financial projections and current budget based on State and local financial information.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

By the end of 2016-17, the District had invested \$337,068,649 in capital assets, net of accumulated depreciation.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

At the time these financial statements were prepared and audited, the District was aware of several circumstances that could affect its future financial health.

Landmark legislation passed in Year 2013 reformed California school district finance by creating the Local Control Funding Formula (LCFF). The District continues to analyze the impact of the LCFF on funding for our program offerings and services. The LCFF is designed to provide a flexible funding mechanism that links student achievement to state funding levels. The LCFF provides a per pupil base grant amount, by grade span, that is augmented by supplemental funding for targeted student groups in low income brackets, those that are English language learners and foster youth. The State anticipates all school districts to reach the statewide targeted base funding levels by 2020-21 but the annual amount funded to meet the target is uncertain.

Factors related to LCFF that the District is monitoring include: (1) estimates of funding in the next budget year and beyond; (2) the Local Control and Accountability Plan (LCAP) that aims to link student accountability measurements to funding allocations; (3) ensuring the integrity of reporting student data through the California Longitudinal Pupil Achievement Data System (CALPADs); and, (4) meeting annual compliance and audit requirements.

State revenues are estimated to increase modestly in 2017-18 but there is uncertainty about the State's long-term economic growth. According to the Legislative Analyst's Office, there are concerns about a possible mild recession. In addition, purchasing power has not been restored to pre-2007/08 levels for most school districts as added funding is going to pay for increases in CalPERS and CalSTRS rates increases and rising health care costs.

The District participates in state employee pensions plans, PERS and STRS, and both are underfunded. The District's proportionate share of the liability is reported in the Statement of Net Position as of June 30, 2017. The amount of the liability is material to the financial position of the District. To address the underfunding issues, the pension plans continue to raise employer rates in future years and the increased costs are significant.

Enrollment can fluctuate due to factors such as population growth, competition from private, parochial, inter-district transfers in or out, economic conditions and housing values. Losses in enrollment will cause a school district to lose operating revenues without necessarily permitting the district to make adjustments in fixed operating costs.

All of these factors were considered in preparing the District's budget for the 2017-18 fiscal year.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the District's Business Office, Pittsburg Unified School District, 2000 Railroad Avenue; Pittsburg, California 94565.

# PITTSBURG UNIFIED SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2017

#### Net Change in Fund Balances - Governmental Funds

\$ (24,306,167)

Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

#### Capital outlay:

In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

Expenditures for capital outlay:

\$ 38,562,523

Depreciation expense:

(14,194,413) 24,368,110

#### Debt service:

In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were:

51.313.000

#### Debt proceeds:

In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt, net of issue premium or discount, were:

(77,297,850)

#### Deferred amounts on refunding:

In governmental funds, deferred amounts on refunding are recognized in the period they are incurred. In the government-wide statements, the deferred amounts on refunding are amortized over the life of the debt. The net effect of the deferred amounts on refunding during the period was:

(209,985)

#### Gain or loss from the disposal of capital assets:

In governmental funds, the entire proceeds from disposal of capital assets are reported as revenue. In the statement of activities, only the resulting gain or loss is reported. The difference between the proceeds from disposal of capital assets and the resulting gain or loss is:

(14,955)

#### Unmatured interest on long-term debt:

In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period, was:

(790,539)

# PITTSBURG UNIFIED SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES, continued

#### FOR THE YEAR ENDED JUNE 30, 2017

In governmental funds, accreted interest on capital appreciation bonds is not recorded as an expenditure from current sources. In the government-wide statement of activities, however, this is recorded as interest expense for the period.

(755,196)

#### Compensated absences:

In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amount earned. The difference between compensated absences paid and compensated absences earned, was:

(248,321)

#### Postemployment benefits other than pensions (OPEB):

In governmental funds, OPEB costs are recognized when employer contributions are made. In the statement of activities, OPEB costs are recognized on the accrual basis. This year, the difference between OPEB costs and actual employer contributions was:

(2,282,156)

#### Pensions:

In governmental funds, pension costs are recognized when employer contributions are made, in the government-wide statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and employer contributions was:

(3,758,586)

#### Amortization of debt issuance premium or discount:

In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount is amortized over the life of the debt. Amortization of premium or discount for the period is:

671,551

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Financial Reporting Entity

The Pittsburg Unified School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

The District operates under a locally elected Board form of government and provides educational services to grades K-12 as mandated by the state. A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student-related activities.

#### B. Component Units

The District and Pittsburg Unified School District Financing Corporation ("the Corporation") have a financial and operational relationship that meets the reporting entity definition criteria for inclusion of the Corporation as a component unit of the District. Therefore, the financial activities of the Corporation have been included in the financial statements of the District

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. In addition, component units are other legally separate organizations for which the District is not financially accountable, but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

The Corporation was formed in March 1994, pursuant to the general California nonprofit corporation laws, to provide financial assistance to the District for construction and acquisition of major capital facilities. Certificates of Participation issued by the Corporation are included as long-term liabilities in the government-wide financial statements. At the end of the lease term, title of all Corporate property will pass to the District for no additional consideration.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### B. Component Units (continued)

The following are those aspects of the relationship between the District and the Corporation:

#### 1. Manifestation of Oversight

The Corporation's Board of Directors was appointed by the District's Governing Board. The
Corporation has no employees. The District's Deputy Superintendent functions as the agent of the
Corporation. This individual receives no additional compensation for work performed in this
capacity.

#### 2. Accounting for Fiscal Matters

- a. The District is able to impose its will upon the Corporation, based on the following:
  - All major financing arrangements, contracts, and other transactions of the Corporation must have the consent of the District.
  - The District exercises significant influence over operations of the Corporation as it is anticipated that the District will be the sole lessee of all facilities owned by the Corporation.
- b. The Corporation provides specific financial benefits or imposes specific financial burdens on the District based upon the following:
  - Any deficits incurred by the Corporation will be reflected in the lease payments of the District.
  - Any surpluses of the Corporation revert to the District at the end of the lease period.
  - The District has assumed a "moral obligation", and potentially a legal obligation, on any debt incurred by the Corporation.

#### 3. Scope of Public Service and Financial Presentation

The Corporation was formed for the sole purpose of providing financing assistance to the District
for construction and acquisition of major capital facilities. Upon completion, the District intends to
occupy all Corporation facilities under a lease-purchase agreement effective through the year 2024.

The Corporation is presented in these financial statements as a blended component unit.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Presentation

Government-Wide Statements: The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reserved for the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting of operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District.

**Fund Financial Statements:** The fund financial statements provide information about the District's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Governmental funds are used to account for activities that are governmental in nature. Governmental activities are typically tax-supported and include education of pupils, operation of food service and child development programs, construction and maintenance of school facilities, and repayment of long-term debt.

Fiduciary funds are used to account for assets held by the District in a trustee or agency capacity for others that cannot be used to support the District's own programs.

#### **Major Governmental Funds**

**General Fund:** The General Fund is the main operating fund of the District. It is used to account for all activities except those that are required to be accounted for in another fund. In keeping with the minimum number of funds principle, all of the District's activities are reported in the General Fund unless there is a compelling reason to account for an activity in another fund. A District may have only one General Fund.

**Building Fund:** This fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code Section* 15146) and may not be used for any purposes other than those for which the bonds were issued. Other authorized revenues to the Building Fund are proceeds from the sale or lease-with-option-to-purchase of real property (*Education Code Section* 17462) and revenue from rentals and leases of real property specifically authorized for deposit into the fund by the governing board (*Education Code Section* 41003).

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Presentation (continued)

#### Major Governmental Funds (continued)

Capital Facilities Fund: This fund is used primarily to account separately for moneys received from fees levied on developers or other agencies as a condition of approving a development (*Education Code Sections* 17620–17626). The authority for these levies may be county/city ordinances (*Government Code Sections* 65970–65981) or private agreements between the District and the developer. Interest earned in the Capital Facilities Fund is restricted to that fund (*Government Code Section* 66006).

**Special Reserve Fund for Capital Outlay Projects:** This fund exists primarily to provide for the accumulation of General Fund moneys for capital outlay purposes (*Education Code Section* 42840).

**Bond Interest and Redemption Fund:** This fund is used for the repayment of bonds issued for the District (*Education Code Sections* 15125–15262). The board of supervisors of the county issues the bonds. The proceeds from the sale of the bonds are deposited in the county treasury to the Building Fund of the District. Any premiums or accrued interest received from the sale of the bonds must be deposited in the Bond Interest and Redemption Fund of the District. The county auditor maintains control over the District's Bond Interest and Redemption Fund. The principal and interest on the bonds must be paid by the county treasurer from taxes levied by the county auditor-controller.

#### Non-Major Governmental Funds

**Special Revenue Funds:** Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The District maintains the following special revenue funds:

**Adult Education Fund:** This fund is used to account separately for federal, state, and local revenues for adult education programs. Money in this fund shall be expended for adult education purposes only. Moneys received for programs other than adult education shall not be expended for adult education (*Education Code Sections* 52616[b] and 52501.5[a]).

**Child Development Fund:** This fund is used to account separately for federal, state, and local revenues to operate child development programs. All moneys received by the District for, or from the operation of, child development services covered under the Child Care and Development Services Act (*Education Code Section* 8200 *et seq.*) shall be deposited into this fund. The moneys may be used only for expenditures for the operation of child development programs. The costs incurred in the maintenance and operation of child development services shall be paid from this fund, with accounting to reflect specific funding sources (*Education Code Section* 8328).

**Cafeteria Special Revenue Fund:** This fund is used to account separately for federal, state, and local resources to operate the food service program (*Education Code Sections* 38090–38093). The Cafeteria Special Revenue Fund shall be used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code Sections* 38091 and 38100).

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Presentation (continued)

#### Non-Major Governmental Funds (continued)

#### Special Revenue Funds (continued)

**Deferred Maintenance Fund:** This fund is used to account separately for state apportionments and the District's contributions for deferred maintenance purposes (*Education Code Sections* 17582–17587). In addition, whenever the state funds provided pursuant to *Education Code Sections* 17584 and 17585 (apportionments from the State Allocation Board) are insufficient to fully match the local funds deposited in this fund, the governing board of a school district may transfer the excess local funds deposited in this fund to any other expenditure classifications in other funds of the District (*Education Code Sections* 17582 and 17583).

Capital Project Funds: Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

**County School Facilities Fund:** This fund is established pursuant to *Education Code Section* 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), or the 2004 State School Facilities Fund (Proposition 55) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code Section* 17070 et seq.).

#### **Fiduciary Funds**

**Trust and Agency Funds:** Trust and agency funds are used to account for assets held in a trustee or agent capacity for others that cannot be used to support the District's own programs. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

**Retiree Benefit Fund:** This fund exists to account separately for amounts held in trust from salary reduction agreements, other irrevocable contributions for employees' retirement benefit payments, or both.

**Foundation Private-Purpose Trust Fund:** This fund is used to account separately for gifts or bequests per *Education Code Section* 41031 that benefit individuals, private organizations, or other governments and under which neither principal nor income may be used for purposes that support the District's own programs.

**Student Body Fund:** The Student Body Fund is an agency fund and, therefore, consists only of accounts such as cash and balancing liability accounts, such as due to student groups. The student body itself maintains its own general fund, which accounts for the transactions of that entity in raising and expending money to promote the general welfare, morale, and educational experiences of the student body (*Education Code Sections* 48930–48938).

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### D. Basis of Accounting - Measurement Focus

#### **Government-Wide and Fiduciary Financial Statements**

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Net Position equals assets and deferred outflows of resources minus liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. The net position should be reported as restricted when constraints placed on its use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities results from special revenue funds and the restrictions on their use.

#### **Governmental Funds**

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Governmental funds use the modified accrual basis of accounting.

#### Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, "available" means collectible within the current period or within 60 days after year-end. However, to achieve comparability of reporting among California school districts and so as not to distort normal revenue patterns, with specific respect to reimbursements grants and corrections to State-aid apportionments, the California Department of Education has defined available for school districts as collectible within one year.

#### Revenues – Exchange and Non-Exchange Transactions (continued)

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from the grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### D. Basis of Accounting - Measurement Focus (continued)

#### **Unearned Revenue**

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received that have not met eligibility requirements are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

#### **Expenses/Expenditures**

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

# E. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position</u>

#### Cash and Cash Equivalents

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

#### **Investments**

Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

#### **Inventories**

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time the individual inventory items are requisitioned. Inventories are valued at historical cost and consist of expendable supplies held for consumption.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

# E. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)</u>

#### **Capital Assets**

The accounting and reporting treatment applied to the capital assets associated with a fund is determined by its measurement focus. Capital assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined in GASB Statement No. 34. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. All reported capital assets, except for land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following estimated useful lives:

#### **Asset Class**

Buildings and Improvements Furniture and Equipment Vehicles

#### **Estimated Useful Life**

25-50 years 5-20 years 8 years

#### **Interfund Balances**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due from other funds/Due to other funds." These amounts are eliminated in the governmental activities columns of the statement of net position.

#### **Compensated Absences**

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resource. These amounts are recorded in the fund from which the employees who have accumulated leave are paid.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken because such benefits do not vest, nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

# E. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)</u>

#### **Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

#### **Premiums and Discounts**

In the government-wide financial statements, long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method.

#### **Deferred Outflows/Deferred Inflows of Resources**

In addition to assets, the District will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the District will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans (the Plans) of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* - The nonspendable fund balance classification reflects amounts that are not in spendable form. Examples include inventory, prepaid items, the long-term portion of loans receivable, and nonfinancial assets held for resale. This classification also reflects amounts that are in spendable form but that are legally or contractually required to remain intact, such as the principal of a permanent endowment.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

# E. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)</u>

#### Fund Balance (continued)

Restricted - The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Governing Board. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. In contrast to restricted fund balance, committed fund balance may be redirected by the government to other purposes as long as the original constraints are removed or modified in the same manner in which they were imposed, that is, by the same formal action of the Governing Board.

Assigned - The assigned fund balance classification reflects amounts that the government *intends* to be used for specific purposes. Assignments may be established either by the Governing Board or by a designee of the governing body, and are subject to neither the restricted nor committed levels of constraint. In contrast to the constraints giving rise to committed fund balance, constraints giving rise to assigned fund balance are not required to be imposed, modified, or removed by formal action of the Governing Board. The action does not require the same level of formality and may be delegated to another body or official. Additionally, the assignment need not be made before the end of the reporting period, but rather may be made any time prior to the issuance of the financial statements.

*Unassigned* - In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### F. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental activities columns of the statement of activities.

#### G. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### H. Budgetary Data

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

#### I. Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County Auditor-Controller bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

#### J. New Accounting Pronouncements

GASB Statement No. 74 – In June 2015, GASB issued Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. This standard's primary objective is to improve the usefulness of information about postemployment benefits other than pensions for making decisions and assessing accountability. The Statement is effective for periods beginning after June 15, 2016. The District has implemented GASB Statement No. 74 for the year ended June 30, 2017.

**GASB Statement No. 75** – In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This standard's primary objective is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions. The Statement is effective for periods beginning after June 15, 2017. The District has not yet determined the impact on the financial statements.

GASB Statement No. 80 – In January 2016, GASB issued Statement No. 80, Blending Requirements for Certain Component Units – an Amendment of GASB Statement No. 14. This standard's primary objective is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. The Statement is effective for periods beginning after June 15, 2016. The District has implemented GASB Statement No. 80 for the year ended June 30, 2017.

GASB Statement No. 82 – In March 2016, GASB issued Statement No. 82, *Pension Issues – an Amendment of GASB Statements No. 67, No. 68, and No. 73.* This standard's primary objective is to address issues regarding the presentation of payroll-related measures in required supplementary information, the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The majority of this Statement is effective for periods beginning after June 15, 2016. The District has implemented GASB Statement No. 82 for the year ended June 30, 2017.

#### B. Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the state; U.S. Treasury instruments; registered state warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; collateralized mortgage obligations; and the County Investment Pool.

**Investment in County Treasury** – The District maintains substantially all of its cash in the County Treasury in accordance with *Education Code Section* 41001. The Contra Costa County Treasurer's pooled investments are managed by the County Treasurer who reports on a monthly basis to the board of supervisors. In addition, the function of the County Treasury Oversight Committee is to review and monitor the County's investment policy. The committee membership includes the Treasurer and Tax Collector, the Auditor-Controller, Chief Administrative Officer, Superintendent of Schools Representative, and a public member. The fair value of the District's investment in the pool is based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

## NOTE 2 - CASH AND INVESTMENTS (continued)

# B. General Authorizations

Except for investments by trustees of debt proceeds, the authority to invest District funds deposited with the county treasury is delegated to the County Treasurer and Tax Collector. Additional information about the investment policy of the County Treasurer and Tax Collector may be obtained from its website. The table below identifies the investment types permitted by California Government Code.

# C. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains a pooled investment with the County Treasury with a fair value of approximately \$42,965,562 and an amortized book value of \$42,950,088. The average weighted maturity for this pool is 205 days.

Local Agency Investment Fund - The investments are held with the Local Agency Investment Fund (LAIF). The program is offered to local agencies and is also part of the Pooled Money Investment Account (PMIA). The investment has an amortized book value of \$35,547, which approximates fair value.

*Cash with Fiscal Agent* - Cash with Fiscal Agent represents \$3,518 in the Capital Facilities Fund held by US Bank and restricted for construction costs of various capital improvements.

*OPEB Trust* – This represents investments in an irrevocable trust for OPEB.

## NOTE 2 - CASH AND INVESTMENTS (continued)

## D. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investments in the County Treasury and LAIF are not required to be rated. As of June 30, 2017, the pooled investments in the County Treasury were rated AAAf/S1+ by Standard and Poor's, and the pooled investments in LAIF had a rating of AAA/V1.

# E. Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2017, the District's bank balance was not exposed to custodial credit risk.

# F. Fair Value

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, either directly or indirectly.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonable available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Contra Costa County Treasury Investment Pool, Local Agency Investment Fund, and the District's OPEB Trust are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

# NOTE 2 - CASH AND INVESTMENTS (continued)

# F. Fair Value (continued)

In fiscal year 2014-15, the District issued \$37,625,000 in General Obligation Refunding Bonds. The Bonds were issued to refund a portion of the Election of 2004, Series B Bonds and a portion of the Election of 2006, Series B Bonds. The Bonds require principal and interest payments through August 1, 2039. Annual interest rates for these Bonds range from 3.00% to 5.00%. The refunding transaction resulted in a net savings to the District \$3,695,107 and a present value savings to the District of \$2,627,478. The Bonds mature as follows:

# 2016 General Obligation Refunding Bonds

In fiscal year 2016-17, the District issued \$69,700,000 in General Obligation Refunding Bonds. The Bonds were issued to refund a portion of the 2011 General Obligation Revenue Bonds. The Bonds require principal and interest payments through August 1, 2044. Annual interest rates for these Bonds range from 2.00% to 4.00%. The refunding transaction resulted in a net savings to the District \$44,933,865 and a present value savings to the District of \$23,198,193. The Bonds mature as follows:

Year Ended June 30,	I	Principal	Interest	Total

# D. Net Pension Liability

The District's beginning net pension liability was \$84,890,685 and increased by \$25,566,519 during the year ended June 30, 2017. The ending net pension liability at June 30, 2017 was \$110,457,204. See Note 11 for additional information regarding the net pension liability.

# E. BBVA Compass Loan

In October 2014, the District received \$5,000,000 in tax-exempt lease financing from BBVA Compass Bank. The lease was to finance a new facility maintenance and storage equipment center. The District will pay a tax-exempt fixed interest rate of 3.00% and will make semiannual principal and interest payments over 10 years. Payment obligations were as follows at June 30, 2017:

Year Ended June 30,	Principal			Interest	Total		
2018	\$	418,000	\$	121,170	\$	539,170

Total	\$	4,248,000	\$	552,450	\$	4,800,450	

# F. California Energy Commission Loan

The District entered into a loan agreement with the California Energy Commission (CEC). The proceeds from the loan will be used for energy efficiency projects within the District. The loan was offered with a zero percent interest rate, and the District will commence repayment once all proceeds have been received. Proceeds have been received so far in the amount of \$826,035. As of June 30, 2017, the District had an outstanding CEC loan balance of \$826,035.

The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. The District's Minimum Fund Balance Policy requires a Reserve for Economic Uncertainties, consisting of unassigned amounts, equal to no less than 3 percent of General Fund expenditures and other financing uses.

## NOTE 10 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

# A. Plan Description and Contribution Information

The District administers a single-employer defined benefit other postemployment benefit (OPEB) plan that provides medical, dental and vision insurance benefits to eligible retirees and their spouses.

Membership of the plan as of the latest actuarial valuation consisted of the following:

Retirees and beneficiaries receiving benefits	219
Active plan members	1,068
Total*	1,287
Number of participating employers	1
*As of March 1, 2016 actuarial study	

Benefits provided Classified (CSEA) and Certificated (PEA) unit members who have completed at least 15 years of full-time service with the District, and are at least age 55 at retirement, and who are actively drawing retirement benefits from either PERS or STRS, are eligible to receive an additional monthly District contribution towards health insurance up to a cap that varies by tier as follows: Retiree only, \$672.00/month; Retiree +1, \$1,344.00/month; Retiree with Family, \$1,747.00/month. These caps are not automatically indexed but are subject to periodic negotiation. For purposes of the 15-year requirement, a minimum of 75% full-time equivalency is required. Management, Confidential and Supervisory employees are subject to the same rules as CSEA

Contributions The District sponsors healthcare coverage under the California Public Employees Medical and Hospital Care Act ("PEMHCA"), commonly referred to as PERS Health. Participation in PEMHCA is financed in part by the District through a contribution to PEMHCA of \$125.00 per employee per month. The \$125.00 went into effect on January 1, 2016, and is scheduled by law to be indexed with medical inflation (CPI) in all future years. The indexed amount for January 1, 2017 is \$128.00, and was used in this valuation for projecting future years' statutory minimums. The District contribution for retirees is subject to the Unequal Contribution Method based on the effective date of the District's participation in PEMHCA. For 2016 the monthly contribution is 70% of \$125, or \$87.50. For 2017, the monthly contribution will be 75% of \$128, or \$96.00. The percentage of the statutory minimum for District retirees will increase by 5% per year until it reaches 100% in the year 2022. The District also pays a 0.32%-of-premium administrative fee to PEMHCA for each retiree. Furthermore, the District will make additional contributions towards certain eligible retirees' premiums until age 65 according to the District's agreements with its various employee groups.

## NOTE 10 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

# B. Investments

*Investment policy*. The District's policy regarding the allocation of the plan's invested assets is established and may be amended by District management. The primary objective is to maximize total Plan return, subject to the risk and quality constraints set forth in the investment guidelines. The investment objective the District has selected is the Moderate Objective, which has a dual goal to seek moderate growth of income and principal. The asset allocation ranges for this objective as of June 30, 2017, are listed below:

Fixed Income: Stated Range – 40-60% Actual 38% Equity: Stated Range – 40-60% Actual 53% Real Estate: Stated Range – 40-60% Actual 9%

Market conditions may cause the account's asset allocation to vary from the stated range from time to time. The investment manager (assisting the District) will rebalance the portfolio no less than quarterly and/or when the actual weighting differs substantially from the strategic range, if appropriate and consistent with the objectives.

*Rate of return.* For the year ended June 30, 2017 the annual money-weighted rate of return on investments, net of investment expense, was 12.33 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

# C. Net OPEB Liability of the District

The components of the net OPEB liability of the District at June 30, 2017, were as follows:

Total OPEB liability	\$ 32,000,958
Plan fiduciary net position	(1,762,896)
District's net OPEB liability	\$ 30,238,062

Plan fiduciary net position as a percentage of total OPEB liability 5.51%

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of March 1, 2016, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary increases	3.0 percent
Investment rate of return	5.0 percent, net of OPEB plan
	investment expense
Healthcare cost trend rate	8.0 percent for 2016, 7.0 percent for
	2017, 6.0 percent for 2018, 5.0 percent
	for 2019 and later

## NOTE 10 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

# C. Net OPEB Liability of the District (continued)

Actuarial assumptions (continued)

Pre-retirement mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, without projection. Post-retirement mortality rates were based on the RP-2014 Health Annuitant Mortality Table for Males or Females, as appropriate, without projection. Actuarial assumptions used in the March 1, 2016 valuation were based on a review of plan experience during the period March 1, 2014 to February 29, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. To achieve the goal set by the investment policy, plan assets will be managed to earn, on a long-term basis, a rate of return equal to or more than the target rate of return of 5.0 percent.

Discount rate. The discount rate used to measure the total OPEB liability was 5.0 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (4.00 percent) or 1-percentage-point higher (6.00 percent) than the current discount rate:

				Valuation			
	19	% Decrease	Di	scount Rate	1% Increase		
		(4.0%)		(5.0%)	(6.0%)		
Net OPEB liability (asset)	\$	33,589,503	\$	30,238,062	\$	27,343,294	

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (7.00 percent decreasing to 4.00 percent) or 1-percentage-point higher (9.00 percent decreasing to 6.00 percent) than the current healthcare cost trend rates:

	% Decrease (7.0% ecreasing to 4.0%)	J	uation Trend Rate (8.0% ecreasing to 5.0%)	% Increase (9.0% ecreasing to 6.0%)
Net OPEB liability (asset)	\$ 28,983,047	\$	30,238,062	\$ 31,729,939

# NOTE 10 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

# D. Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	\$ 3,282,308
Interest on net OPEB obligation	422,499
Adjustment to annual required contribution	(549,683)
Annual OPEB cost (expense)	3,155,124
Contributions made	(872,968)
Increase (decrease) in net OPEB obligation	2,282,156
Net OPEB obligation, beginning of the year	8,449,977
Net OPEB obligation, end of the year	\$ 10,732,133

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the year ended June 30, 2017 and the preceding two years were as follows:

	Annual				
	OPEB	Percentage	Net OPEB		
Year Ended June 30,	Cost	Contributed	(	Obligation	
2017	\$ 3,155,124	28%	\$	10,732,133	
2016	\$ 3,187,185	33%	\$	8,449,977	
2015	\$ 1,888,078	93%	\$	6,319,867	

The funded status of the plan as of the most recent actuarial evaluation consists of the following:

			Actuarial				
Actuarial			Accrued	Unfunded			UAAL as a
Valuation	Actu	arial Valuation	Liability	AAL		Covered	Percentage of
Date		of Assets	(AAL)	(UAAL)	Funded Ratio	Payroll	Covered Payroll
March 1, 201	6 \$	1.207.942	\$ 26,518,155	\$ 25,310,213	5%	\$ 67.130.463	38%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, investment returns, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

# NOTE 10 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

# E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Valuation Date	3/1/2016
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Level Dollar
Remaining Amortization Period	29 years
Asset Valuation	Market Value
Actuarial Assumptions: Investment rate of return	5.0%
investment rate of return	5.0%
Discount rate	5.0%
Health care trend rate	5.0-8.0%
Inflation rate	3.5%

#### **NOTE 11 - PENSION PLANS**

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS), and classified employees are members of the California Public Employees' Retirement System (CalPERS). The District reported its proportionate share of the net pension liabilities, pension expense, deferred outflow of resources, and deferred inflow of resources for each of the above plans as follows:

				Deferred	Defe	erred inflows		
	N	Net pension	out	flows related	1	related to

## <u>California State Teachers' Retirement System (CalSTRS)</u>

## **Plan Description**

The District contributes to the California State Teachers' Retirement System (CalSTRS); a cost-sharing multiple employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Blvd., Sacramento, CA 95826.

#### Benefits provided

The CalSTRS defined benefit plan has two benefit formulas:

CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS

CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS

## CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

# NOTE 11 - PENSION PLANS (continued)

# California State Teachers' Retirement System (CalSTRS) (continued)

Benefits provided (continued) CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

#### Contributions

Active plan CalSTRS 2% at 60 and 2% at 62 members are required to contribute 10.25% and 9.205% of their salary for fiscal year 2017, respectively, and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2017 was 12.58% of annual payroll. The contribution requirements of the plan members are established by state statute. Contributions to the plan from the District were \$6,566,851 for the year ended June 30, 2017.

# **On-Behalf Payments**

The District was the recipient of on-behalf payments made by the State of California to CalSTRS for K-12 education. These payments consist of state general fund contributions of approximately \$3,850,736 to CalSTRS.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the	
net pension liability	\$ 80,823,036
State's proportionate share of the net	
pension liability associated with the District	 46,017,886
Total	\$ 126,840,922

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2016, the District's proportion was 0.100 percent, which was an increase of 0.05 percent of from its proportion measured as of June 30, 2015.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

For the year ended June 30, 2017, the District recognized pension expense of \$8,911,362. In addition, the District recognized pension expense and revenue of \$8,210,658 for support provided by the State. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

# **Actuarial assumptions**

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

Consumer Price Inflation	3.00%
Investment Yield*	7.60%
Wage Inflation	3.75%

<sup>\*</sup> Net of investment expenses, but gross of administrative expenses.

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2006–June 30, 2010.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance - PCA) as an input to the process. Based on the model from CalSTRS consulting actuary's (Milliman) investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that annual returns are lognormally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation by PCA is based on board policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2016 are summarized in the following table:

		Long-Term*

# California State Teachers' Retirement System (CalSTRS) (continued)

# Discount rate

The discount rate used to measure the total pension liability was 7.60 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.60 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.60 percent) or 1-percentage-point higher (8.60 percent) than the current rate:

	1%		Current	1%	
	Decrease (6.60%)	Di	iscount Rate (7.60%)	Increase (8.60%)	
District's proportionate share of

# Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalSTRS financial report.

## NOTE 11 - PENSION PLANS (continued)

# California Public Employees' Retirement System (CalPERS)

# **Plan Description**

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS); a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95811.

# Benefits provided

The benefits for the defined benefit plan are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years of credited service.

#### Contributions

Active plan members who entered into the plan prior to January 1, 2013, are required to contribute 7.0% of their salary. The California Public Employees' Pension Reform Act (PEPRA) specifies that new members entering into the plan on or after January 1, 2013, shall pay the higher of fifty percent of normal costs or 6.0% of their salary. Additionally, for new members entering the plan on or after January 1, 2013, the employer is prohibited from paying any of the employee contribution to CalPERS unless the employer payment of the member's contribution is specified in an employment agreement or collective bargaining agreement that expires after January 1, 2013.

The District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2017 was 13.888% of annual payroll. Contributions to the plan from the District were \$2,729,240 for the year ended June 30, 2017.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$29,634,168 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2016, the District's proportion was 0.150 percent, which was an increase of 0.007 percent from its proportion measured as of June 30, 2015.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

For the year ended June 30, 2017, the District recognized pension expense of \$4,143,315. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

# **Actuarial assumptions**

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

Consumer Price Inflation 2.75% Investment Yield\* 7.65%

Wage Inflation Varies by Entry Age and Service

CalPERS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are derived using CalPERS' membership data for all funds. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

The actuarial assumptions used in the June 30, 2015, valuation were based on the results of an actuarial experience study for the period from 1997 to 2011.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were taken into account. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

<sup>\*</sup> Net of investment expenses, but gross of administrative expenses.

# Discount rate

The discount rate used to measure the total pension liability was 7.65 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Schools Pool. The results of the crossover testing for the Schools Pool are presented in a detailed report that can be obtained at CalPERS' website.

# Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.65 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.65 percent) or 1-percentage-point higher (8.65 percent) than the current rate:

## **NOTE 12 – COMMITMENTS AND CONTINGENCIES**

# A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2017.

# B. Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2017.

## C. Construction Commitments

As of June 30, 2017, the District had commitments with respect to unfinished capital projects from its various bond funds.

## NOTE 13 – PARTICIPATION IN JOINT POWERS AUTHORITIES

The Pittsburg Unified School District participates in two joint powers agreement (JPA) entities, the Contra Costa County Schools Insurance Group (CCCSIG) for workers' compensation insurance, and the Schools' Self Insurance of Contra Costa County (SSICCC) for dental and vision insurance.

Each JPA is governed by a board consisting of a representative from each member district. Each governing board controls the operations of its JPA independent of any influence by the Pittsburg Unified School District beyond the District's representation on the governing boards.

Each JPA is independently accountable for its fiscal matters. Budgets are not subject to any approval other than that of the respective governing boards. Member districts share surpluses and deficits proportionately to their participation in the JPA. The relationship between the Pittsburg Unified School District and the JPAs are such that neither of the JPAs is a component unit of the District for financial reporting purposes. The audited financial statements are generally available from the respective entities.

#### NOTE 14 – DEFERRED OUTFLOWS OF RESOURCES

#### Refunded Debt

Pursuant to GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities, the District recognized deferred outflows of resources in the District-wide financial statements. The deferred outflow of resources pertains to the difference in the carrying value of the refunded debt and its reacquisition price (deferred amount on refunding). Previous financial reporting standards require this to be presented as part of the District's long-term debt. This deferred outflow of resources is recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the new debt, whichever is shorter. At June 30, 2017, the deferred amount on refunding was \$4,342,041.

#### NOTE 15 – RESTATEMENT OF FIDUCIARY NET POSITION

The District's beginning Fiduciary Net Position was restated to record the District's irrevocable OPEB trust as follows:

# **NOTE 16 – SUBSEQUENT EVENTS**

In August 2017, the District issued Series 2017 General Obligation Refunding Bonds in the amount of \$20,305,000. The proceeds of the 2017 General Obligation Refunding Bonds were used to refund portions of the Election of 2004, Series C bonds, the Election of 2006, Series A bonds, and the Election of 2006, Series B bonds, and to pay for costs of issuance of the bonds. The Bond accrues interest between 3.00% and 5.00% per annum from the date of the issuance and is payable semi-annually on February 1 and August 1 of each year through August 2034.

In August 2017, the District issued Election of 2014, Series B Bonds in the amount of \$18,000,000. The proceeds of the bonds were used to finance the acquisition and construction of educational facilities and projects and to pay for costs of issuance of the bonds. The Bond accrues interest between 3.25% and 5.00% per annum from the date of the issuance and is payable semi-annually on February 1 and August 1 of each year through August 2046.

In October 2017, the District issued 2017 Refunding Certificates of Participation in the amount of \$18,270,000. The proceeds were used to refund the District's 2010 Certificates of Participation. The certificates accrue interest between 3.00% and 5.00% per annum from the date of the issuance, which is payable semi-annually on February 1 and August 1 of each year through June 2035.

In November 2017, the District discovered that assets were missing from the Adult Education Fund. An adjustment to decrease accounts receivable by \$254,308 at June 30, 2017 has been recorded. The District expects to recover a portion of the amount through insurance proceeds. Further details regarding this matter can be found in Finding #2017-002.

### PITTSBURG UNIFIED SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2017

#### NOTE 1 – PURPOSE OF SCHEDULES

#### **Budgetary Comparison Schedule**

This schedule is required by GASB Statement No. 34 as required supplementary information (RSI) for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The budgetary comparison schedule presents both (a) the original and (b) the final appropriated budgets for the reporting period as well as (c) actual inflows, outflows, and balances, stated on the District's budgetary basis. A separate column to report the variance between the final budget and actual amounts is also presented, although not required.

#### Schedule of Changes in the District's Net OPEB Liability

This 10-year schedule is required by GASB Statement No. 74 for all single-employer and cost-sharing other postemployment benefits (OPEB) plans. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 74 was applicable. The schedule presents the sources of changes in the net OPEB liability, information about the components of the net OPEB liability and related ratios, including the OPEB plan's fiduciary net position as a percentage of the total OPEB liability, and the net OPEB liability as a percentage of the covered payroll.

#### Schedule of District Contributions - OPEB

This 10-year schedule is required by GASB Statement No. 74 for employers or non-employer contributing entities in a single-employer or cost-sharing OPEB plan for which an actuarially determined contribution is calculated. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 74 was applicable. The schedule presents information about the actuarially determined contribution, contributions to the OPEB plan, and related ratios.

#### Schedule of Investment Returns – OPEB

This 10-year schedule is required by GASB Statement No. 74 for all defined benefit OPEB plans. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 74 was applicable. The schedule presents the annual money-weighted rate of return on OPEB plan investments for each year.

#### **Schedule of Funding Progress**

This schedule is required by GASB Statement No. 45 for all sole and agent employers that provide other postemployment benefits (OPEB). The schedule presents, for the most recent actuarial valuation and the two preceding valuations, information about the funding progress of the plan, including, for each valuation, the actuarial valuation date, the actuarial value of assets, the actuarial accrued liability, the total unfunded actuarial liability (or funding excess), the actuarial value of assets as a percentage of the actuarial accrued liability (funded ratio), the annual covered payroll, and the ratio of the total unfunded actuarial liability (or funding excess) to annual covered payroll.

### PITTSBURG UNIFIED SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION, continued FOR THE YEAR ENDED JUNE 30, 2017

#### NOTE 1 – PURPOSE OF SCHEDULES (CONTINUED)

#### Schedule of the District's Proportionate Share of the Net Pension Liability

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District's proportion (percentage) of the collective net pension liability, the District's proportionate share (amount) of the collective net pension liability, the District's covered payroll, the District's proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability.

#### **Schedule of District Contributions**

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District's statutorily or contractually required employer contribution, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the District's covered payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contributions as a percentage of the District's covered payroll.

#### NOTE 2 – EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2017, the District incurred an excess of expenditures over appropriations in individual major funds presented in the Budgetary Comparison Schedule by major object code as follows:

# PITTSBURG UNIFIED SCHOOL DISTRICT NOTES TO SUPPLEMENTARY INFORMATION JUNE 30, 2017

#### NOTE 1 – PURPOSE OF SCHEDULES

#### **Schedule of Expenditures of Federal Awards**

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenue, Expenditures, and Changes in Fund Balance, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts represent Federal funds that have been recorded as revenues in a prior year that have been expended by June 30, 2017 or Federal funds that have been recorded as revenues in the current year and were not expended by June 30, 2017.

#### Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

#### **Schedule of Instructional Time**

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code Sections* 46200 through 46208. During the year ended June 30, 2017, the District participated in the Longer Day incentive funding program. As of June 30, 2017, the District had not yet met its target funding.

# OTHER INDEPENDENT AUDITORS' REPORTS

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

**Independent Auditors' Report** 

Governing Board Pittsburg Unified School District Pittsburg, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pittsburg Unified School District, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Pittsburg Unified School District's basic financial statements, and have issued our report thereon dated March 14, 2018.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Pittsburg Unified School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pittsburg Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Pittsburg Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Audit Findings and Questioned Costs that we consider to be significant deficiencies. (Findings #2017-001 and #2017-002)

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Pittsburg Unified School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### Pittsburg Unified School District's Response to Findings

Pittsburg Unified School District's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Pittsburg Unified School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

#### **Independent Auditors' Report**

Governing Board Pittsburg Unified School District Pittsburg, California

#### Report on Compliance for Each Major Federal Program

We have audited Pittsburg Unified School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Pittsburg Unified School District's major federal programs for the year ended June 30, 2017. Pittsburg Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Pittsburg Unified School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Pittsburg Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Pittsburg Unified School District's compliance.

#### Opinion on Each Major Federal Program

In our opinion, Pittsburg Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

#### **Report on Internal Control Over Compliance**

Management of Pittsburg Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Pittsburg Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Pittsburg Unified School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### REPORT ON STATE COMPLIANCE

#### **Independent Auditors' Report**

Governing Board
Pittsburg Unified School District
Pittsburg, California

#### Report on State Compliance

We have audited Pittsburg Unified School District's compliance with the types of compliance requirements described in the 2016-17 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, prescribed in Title 5, California Code of Regulations, section 19810, that could have a direct and material effect on each of Pittsburg Unified School District's state programs for the fiscal year ended June 30, 2017, as identified below.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Pittsburg Unified School District's state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the 2016-17 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, prescribed in Title 5, California Code of Regulations, section 19810. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the state programs noted below occurred. An audit includes examining, on a test basis, evidence about Pittsburg Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with the requirements referred to above. However, our audit does not provide a legal determination of Pittsburg Unified School District's compliance with those requirements.

**FIVE DIGIT CODE** 

**AB 3627 FINDING TYPE** 

20000 30000 Inventory of Equipment Internal Control

#### FINDING #2017-001: ASSOCIATED STUDENT BODY FUNDS (30000)

Criteria: Maintaining sound internal control procedures over cash receipts and cash disbursements reduces the opportunity for irregularities to go undetected. The Fiscal Crisis & Management Assistance Team (FCMAT) Associated Student Body Accounting Manual & Desk Reference outlines proper internal control procedures for associated student body accounts to follow.

**Condition**: The following discrepancies were noted through testing of ASB cash receipts and disbursements at Rancho Medanos Junior High School:

- 4 of 10 cash receipts tested did not have adequate supporting documentation to reconcile the sales to the amounts deposited.
- 3 of 10 cash receipts tested were not deposited timely.

Cause: Insufficient controls over student body activities.

**Effect**: The potential for irregularities in accounting to go undetected.

**Recommendation**: We recommend that cash receipts have adequate supporting documentation to reconcile the sales to the amounts deposited. Additionally, deposits should be made on a timely basis.

**District Response:** The District arranged a FCMAT-led ASB training to all ASB Advisors, Principals, and Secretaries in the fall of 2017. This training was mandatory and covered all critical aspects of ASB regulations. Additionally, the district courier now takes deposits from all schools to the bank daily and/or weekly, as needed, to ensure timely deposits.

# PITTSBURG UNIFIED SCHOOL DISTRICT FINANCIAL STATEMENT FINDINGS, continued FOR THE YEAR ENDED JUNE 30, 2017

#### FINDING #2017-002: ADULT EDUCATION INTERNAL CONTROLS (30000)

**Criteria:** Maintaining sound internal control procedures over bank accounts reduces the opportunity for irregularities to go undetected.

Condition: During an internal review, the District discovered evidence to support that \$277,693 in cash and checks was missing from Adult Education. The District had a bank account to collect fees for the Child Care program that was no longer in use. Once the District discovered that this account was still open in October 2014, the District gave directions to Adult Education to close the account immediately and received confirmation from them that it was closed. The account was never closed, and the District suspects that it was used to misappropriate funds. The District does anticipate recovering a portion of the money through insurance proceeds.

Cause: A bank account that was no longer in use was not closed.

**Effect**: Potential for misappropriation of funds.

**Recommendation**: We recommend that the District implement internal control procedures to verify that bank accounts no longer in use are closed.

**District Response:** The District closed the Child Care bank account on November 7, 2017, after discovering that it was still open. Additionally, the District hired a new Accountant as of January 11, 2018 to better manage cash control for the Adult Education program. In January 2018, the Adult Education attendance software was upgraded to include a cash and bank reconciliation to better manage internal control.

PITTSBURG UNIFIED SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

FOR THE YEAR ENDED JUNE 30, 2017

FINDING 2016-1: YEAR-END ADJUSTMENTS (30000)

Criteria: Internal controls over year-end adjustments are important to ensure that the District's financial statements are free of material misstatement.

**Condition:** During testing of the District's unaudited actuals, adjustments had to be made in order to properly state revenue and accounts receivable. The District was not properly accounting for some categorical programs.

Cause: Lack of oversight over District accounting.

Effect: Risk of material misstatement.

**Recommendation:** Sound internal controls and oversight should be put into place to review all activity recorded in the District's accounting records.

**District Response:** In closing future fiscal years, District staff will thoroughly review revenue received and ensure it is recorded in the proper fiscal year.

Current Status: Implemented.

PITTSBURG UNIFIED SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

FOR THE YEAR ENDED JUNE 30, 2017

FINDING#2016-2: SCHOOL ACCOUNTABILITY REPORT CARD (72000)

Criteria: School Accountability Report Cards (SARCs), prepared on annual basis for each school site within the District and posted in February, should contain information regarding school facilities conditions, as indicated in the most recently prepared facility inspection tool (FIT) form developed by the Office of Public School Construction and approved by the State Allocation Board, or local evaluation instruments that meet the same criteria, as per Education Code Sections 33126(b)(8) and 17002(d).

**Condition:** During testing of a representative sample of 2014-15 SARCs posted in 2015-16, an issue was noted regarding facilities conditions at Martin Luther King Jr. Junior High School. The SARC stated that the interior was "Good", while the FIT form stated that the interior was "Fair".

Cause: Clerical error in posting the SARC.

**Questioned Costs:** Not applicable.

**Effect:** One SARC selected for testing was not accurate.

**Recommendation:** We recommend that the District implement a process to accurately compile information included in the most recently prepared FITs.

**District Response:** The District will initiate a new system to ensure the School Accountability Report Card is accurate. First, the site will complete the Facility Inspections Tool (herein FIT). Upon completion of the FIT, Site Administrators will use results from the FIT to inform the School Accountability Report Card (herein SARC). The site will then submit the SARC to Educational Services. Educational Services will review all reports for accuracy and the Director will submit the final documents to the County Office of Education.

Current Status: Implemented.

### PITTSBURG UNIFIED SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2017

#### FINDING 2016-3: ATTENDANCE REPORTING (10000)

**Criteria:** The Annual Attendance Report should tie to supporting documentation per Education Code Section 41601. Auditors are required to verify compliance in Section A of the 2015-16 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting.

**Condition:** The District's Annual Attendance Report did not match supporting documentation due to Extended Year Special Education being counted on both lines A-2 and A-4. The ADA was overstated by 12.67, and discrepancies by Grade Span on line A-4 are as follows:

- Grades TK-3 amount reported was 6.80, should have been 1.22, overstatement of 5.58 ADA
- Grades 4-6 amount reported was 3.12, should have been 1.04, overstatement of 2.08 ADA
- Grades 7-8 amount reported was 2.11, should have been 0.89, overstatement of 1.22 ADA
- Grades 9-12 amount reported was 5.71, should have been 1.92, overstatement of 3.79 ADA

Cause: Discrepancy was due to clerical errors.

Effect: Misstatement of ADA on the Annual attendance report.

**ADA Impact:** The District's Annual Attendance Report was overstated by 12.67 ADA. Grades TK-3 was overstated by 5.58 ADA, grades 4-6 was overstated by 2.08 ADA, grades 7-8 was overstated by 1.22 ADA, grades 9-12 was overstated by 3.79 ADA.

Questioned Cost: None, since the District is not funded on Annual Attendance

Recommendation: We recommend implementation of internal controls to ensure accuracy of attendance reporting.

**District Response:** The District has already taken steps to remedy the accuracy of the Annual Attendance Reports and additionally has implemented internal controls to ensure the reliability of these reports moving forward. The process begins with the Coordinator of Student Data who generates initial reports and checks for accuracy. Reports are sent to site Administrators who verify and ensure the accuracy of their site report and resubmit information back to the Coordinator who makes necessary adjustments and submits the completed report to the Director of Educational Services and then the Finance Director. After reviewing and verifying report information, the Finance Director submits the report to the Deputy Superintendent and Superintendent for final review and approval. This process will ensure accuracy in District reports moving forward.

Current Status: Implemented.
